

## UPDATE ON THE GENERATION OF CLIENT STATEMENTS BY CSD PARTICIPANTS

---

Members of the public are hereby informed that the Central Securities Depository of Botswana (CSDB) has discontinued sending clients' account statements due to the implementation of the Retail Investor Module (RIM) that is a part of the new CSD System.

The Retail Investor Module is a feature on the new CSD System that is being implemented to avail clients access to their personal accounts to view information on holdings online and to eliminate delays resulting from issuing statements to account holders.

As such, in the interim, clients are advised to engage their respective Brokers to access their account statements until finalization of this Module which is expected end of April 2023.

Communiqué on the completion of this exercise will be shared with stakeholders in due time.
