WHO IS ENTITLED TO VOTE AND HOW THE VOTES ARE COUNTED
Each shareholder is entitled to one vote for each Common Share held as of the record date, April 07, 2016, on all matters at the Meeting. As of the record date, there are 380,834,415 issued and outstanding Common Shares.

Management Proxy Circular April 07, 2016
Lucara Diamond Corp.
SECTION 2 - BUSINESS OF THE MEETING

1. **FINANCIAL STATEMENTS**

The audited consolidated financial statements of the Corporation for the year ended December 31, 2015 have been provided to shareholders who requested them and are available on Lucara’s website at www.lucaradiamond.com or at SEDAR at www.sedar.com. Management will discuss these consolidated financial results at the Meeting. No vote of shareholders is required with respect to this item of business.

2. **APPOINTMENT AND REMUNERATION OF AUDITORS**

The Board of Directors recommend the re-appointment of PricewaterhouseCoopers LLP Chartered Accountants (“PwC”), Vancouver, British Columbia, as auditors of the Corporation to hold office until the termination of the next annual meeting of the shareholders.

As in past years, it is proposed that the remuneration to be paid to the auditors shall be determined by the Board of Directors. For further information on the external auditors including fees paid to the auditors in 2014 and 2015, please refer to page 19 of this Circular.

You may either vote for reappointing PwC as Lucara’s auditor to hold office until the end of the next annual meeting and authorizing the directors to fix the auditors remuneration or you can withhold your vote. Unless otherwise instructed, the named proxyholders will vote FOR reappointing PwC and authorizing the directors to fix PwC’s remuneration.

3. **ELECTION OF DIRECTORS**

**Nominees of Directors**

The term of office of each of the present directors expires at the Meeting. The nominees for directors include each of the existing directors of the Corporation. The Board of Directors is recommending that the current seven directors be elected at the Meeting. The Board has assessed the skills and experience that the directors standing for election offer and is satisfied the nominees meet the Board’s requirements. Each director elected at the Meeting will serve as a director until the next annual meeting unless he or she resigns or is otherwise removed from office earlier.

You may either vote for the election of each of the below nominees or you can withhold your vote. Unless otherwise instructed, the named proxyholders will vote FOR the election of the below named nominees. If any proposed nominee is unable to serve as a director or withdraws his or her name, the named proxyholders reserve the right to nominate and vote for another individual in their discretion.

The Board has adopted a policy on Majority Voting that provides that the Chair of the Board will ensure that the number of shares voted in favour or withheld from voting for each director nominee is recorded and promptly made public after the meeting. If any nominee for director is not elected by at least a majority (50% + 1 vote) of the votes cast with regard to his or her election, the director must immediately tender his or her resignation to the Chair of the Board following the meeting, to take effect upon acceptance by the Board. The Board shall accept the resignation absent exceptional circumstances. To assist the Board in making a determination with regard to exceptional circumstances, the Board will refer the resignation to the Corporate Governance and Nominating Committee who will expeditiously consider the director’s offer to resign and make a recommendation to the Board whether to accept the resignation. Within 90 days of the shareholders’ meeting, the Board will make a final decision concerning the acceptance of the director’s resignation (and reasons for rejecting the resignation if applicable) and announce that decision by way of a news release. Any director who tenders his or her resignation will not participate in the deliberations of the Board or any of its committees pertaining to the resignation. The policy applies only to uncontested elections, where the number of nominees as director is equal to the number of directors to be elected. If the director fails to tender his or her resignation as contemplated in the policy, the Board will not re-nominate the
director. Subject to any corporate law restrictions, where the Board accepts the offer of resignation of a director and that director resigns, the Board may exercise its discretion with respect to the resulting vacancy and may, without limitation, leave the resultant vacancy unfilled until the next annual meeting of shareholders, fill the vacancy through the appointment of a new director whom the Board considers to merit the confidence of the shareholders, or call a special meeting of shareholders to elect a new nominee to fill the vacant position.

Information regarding each of the seven proposed nominees, as at April 07, 2016, is set out below. For each nominee the information provided includes:

- a brief biography, age and country of residence
- date first appointed to the Board
- committee membership
- voting securities held

Further information on the proposed nominees is also found in this Circular, please see page 14 for Board attendance records, pages 34 and 35 for director compensation received, page 14 for memberships on other public boards and page 13 for independence status.

**Notes to Profiles of the Nominated Directors re Corporate Cease Trade Orders/Bankruptcies:**

1. From January 2014 to May 2015 Mr. Clark was President, Chief Executive Officer and Director of RB Energy Inc. (“RBI”). On October 14, 2014, RBI applied for and obtained an Initial Order (the “Order”) to commence proceedings under the Companies’ Creditors Arrangement Act (the “CCAA”) in the Québec Superior Court (the “Court”). The Court issued the Order in respect of RBI and its Canadian subsidiaries. The Order granted an initial stay of creditor proceedings to November 13, 2014 which was extended to April 30, 2015. In May 2015 the Court appointed a receiver, Duff & Phelps Canada Restructuring Inc., under the Bankruptcy and Insolvency Act, and terminated the CCAA proceedings. The TSX de-listed RBI’s common shares effective at the close of business on November 24, 2014 for failure to meet the continued listing requirements of the TSX. Since that time, RBI’s common shares have been suspended from trading. Mr. Clark resigned as a Director and ceased employment as President and CEO of RBI on May 8, 2015.

2. As noted in paragraph 1 above, RBI filed for CCAA protection on October 13, 2014. Messrs. Lundin and Conibear have never been directors, officers or control persons of RB Energy. Messrs. Lundin and Conibear were directors of one of the amalgamating companies that formed RBI, Sirocco Mining Inc. (“Sirocco”). On January 31, 2014, Mr. Lundin and Mr. Conibear, resigned as directors of Sirocco at which time Sirocco was financially solvent. However, as a result of the legal effect of the amalgamation of Canada Lithium and Sirocco, and as Messrs. Lundin and Conibear were directors of one of the amalgamating companies that formed RBI, and as RBI filed for CCAA protection within 12 months after Messrs. Lundin and Conibear ceased to be directors of Sirocco, Messrs. Lundin and Conibear are considered to have been directors of an issuer within the period of 12 months preceding it filing for CCAA protection.

3. Mr. Edgar was a director of New West Energy Services Inc. (TSX-V), when a cease trade order was issued against that company by the British Columbia Securities Commission on September 5, 2006 for failure to file its financial statements within the prescribed time. The default was rectified and the order was rescinded on November 9, 2006. Mr. Edgar resigned as a director of New West Energy Services Inc. in August 2009.

4. Ms. Inkster served as Vice President, Finance of GBS Gold International Inc. (“GBS”) from September 2007 to June 2008. On September 15, 2008, GBS put its Australian group of subsidiaries into voluntary liquidation proceedings. In March 2009, GBS announced that it had agreed to transfer its remaining valued assets to the secured promissory note holders pursuant to the terms of a note indenture and general security deed entered into on May 27, 2008. The shares of GBS were suspended from trading on the NEX board and it has effectively ceased business.

**Advance Notice**

On, March 21, 2013, the Board approved an advance notice policy for nominations of directors by shareholders in certain circumstances, which was approved by the shareholders of the Corporation on June 21, 2013 and is posted on the Corporation’s website. As at the date of this Circular, Lucara has not received notice of any director nominations in connection with the Meeting. Accordingly, at this time, the only persons eligible to be nominated for election to the Board at the Meeting are the above nominees.

4. **APPROVAL OF UNALLOCATED OPTIONS UNDER THE STOCK OPTION PLAN**

Lucara’s new Stock Option Plan was approved by shareholders on May 13, 2015 (the “Stock Option Plan”). This plan replaced a 2013 Stock Option Plan. The Stock Option Plan contains evergreen provisions specifying that, if any option has been exercised, cancelled or has expired or been terminated for any reason, it will again be available for grant. The rules of the TSX provide that all unallocated options, under a stock option plan which contains evergreen provisions, be approved by shareholders every three years. Shareholder approval in 2013 was received for unallocated options under the Stock Option Plan until June 21, 2016. Therefore, approval is now being sought for the unallocated options under the Stock Option Plan for a further 3 years, until May 12, 2019. If shareholder approval is not received for the unallocated options, the Stock Option Plan will remain in effect and continue to govern options awarded prior to June 21, 2016. However, if the shareholders do not approve the requested approval for unallocated options no further options under the Stock Option Plan may be awarded following the meeting and expired or cancelled options may not be reallocated.

The Stock Option Plan provides participants with an incentive to enhance shareholder values by providing a form of compensation that is tied to increases in the market value of the Corporation’s shares. The aggregate number of Common Shares available at all times for issuance under the Stock Option Plan is 20,000,000, which represents approximately 5.25% of the Corporation’s current issued and outstanding Common Shares. To date, there are 4,991,269 options outstanding which represents approximately 1.31% of the Corporation’s current issued and outstanding Common Shares. Therefore, an additional 15,008,731 options are available for grant representing approximately 3.94% of the issued and outstanding common shares. Further details on the Stock Option Plan can be found on pages 38 and 39 of this Circular.

The TSX has conditionally approved the issuance of the unallocated options under the Stock Option Plan until May 12, 2019, subject to receipt from the Corporation of evidence of shareholder approval.

You may either vote for approval of the following resolution or you can vote against. Unless otherwise instructed, the named proxyholders will vote FOR the approval of Unallocated Options - Stock Option Plan Resolution.

**“BE IT RESOLVED that:**

i. **Unallocated options under the Stock Option Plan be and are hereby approved until May 12, 2019;**
ii. The Corporation has the ability to continue granting options under the Stock Option Plan until May 12, 2019; and

iii. any one director or officer of the Corporation is hereby authorized and directed to do all such acts and things and to execute and deliver, under the corporate seal of the Corporation or otherwise, all such deeds, documents, instruments and assurances as in his or her opinion may be necessary or desirable to give effect to the foregoing resolutions."

SECTION 3 - CORPORATE GOVERNANCE

STATEMENT OF CORPORATE GOVERNANCE PRACTICES
Lucara is committed to a high standard of corporate governance. The directors believe that a high standard of governance is important for the successful operation of the business and creation of shareholder value. The following provides information about the Corporation’s Board and sets out governance practices now in force.

MANDATE OF THE BOARD OF DIRECTORS
The Board has a formal mandate (see Appendix A) that lists specific responsibilities including:

• Approve the strategic direction of the Corporation
• Identify principal risks of the Corporation’s business and ensure implementation of appropriate risk management systems
• Ensure the Corporation has management of the highest caliber
• Oversee Lucara’s communication policy with its shareholders and the public generally.

The Board discharges its responsibilities either directly or through its committees.

Strategic Planning
The Board works with management to develop the Corporation’s strategic direction. The strategic planning process involves the development of a long term (5 year) strategic plan, the establishment of annual budgets and two-year financial plans, and an annual review of the strategic plan. Management is responsible for preparing information in these areas and presenting it to the Board for discussion and approval.

In addition, the Board on an ongoing basis throughout the year discusses with management strategic issues including competitive developments and corporate opportunities. The Board measures the success of the strategic plan by assessing performance results against annual corporate objectives.

Risk Oversight
The Board has implemented a risk management process. At each quarterly meeting of the Audit Committee, a risk report is reviewed and monitored which includes:

• identification and description of risks
• the impact of the identified risks
• classification of the risk as high/medium/low
• an action plan to mitigate the impact of the risk
• identification of the “owner” of the risk i.e. the employee who owns the risk and is responsible for implementing controls and developing ways to mitigate the risk

In addition, the Safety, Health, Environmental and Community Relations Committee assists the Board in its oversight of Lucara’s operations (including the operations of its active subsidiaries) by monitoring
management’s performance in managing and mitigating risks involved with safety, health, environment and the local community. The Committee also is involved in the review and issuance of a detailed Sustainability Report which is published on an annual basis and provides a detailed overview of risks/material issues including context, potential impact and management’s approach.

**INDEPENDENCE**
The majority of Lucara’s current directors and its director nominees are independent.

**Assessing Independence of Directors**
The Board is responsible for determining whether a director is independent. It relies on the criteria set by the Canadian Securities Administrators in National Instrument 52-110 Audit Committees and National Policy 58-201- Corporate Governance Guidelines.

The Board has reviewed the nominated directors and decided that William Lamb and Lukas Lundin are not independent for the following reasons. Mr. Lamb is Lucara’s current President and CEO. Mr. Lundin is Lucara’s Chair of the Board, as Chair he is involved with the Corporation on corporate development opportunities and raising capital which could be regarded as having an indirect material relationship.

**Structures and Processes to Facilitate Independence from Management**
The Board believes that the following structures and processes facilitate the functioning of the Board independently of management:

- **Chair and Lead Director**
  The Chair of the Board position is separate from the CEO position. As noted above, it has been determined by the Board that the Chair of the Board, Mr. Lundin, is not independent. On the recommendation of the Corporate Governance and Nominating Committee, the Board has appointed a Lead Director, Mr. Conibear, to facilitate the independent function of the Board. In the position description for the Chair setting out the responsibilities of the Chair, it is specified that if the Chair is not independent that such responsibilities will be carried out by the Lead Director. In addition, the Lead Director provides leadership for the Board’s independent directors.

- **Meetings of Independent Directors and Without Management**
  To facilitate open and candid discussion among directors, a practice of holding two “in-camera” sessions or meetings is normally followed for quarterly Board meetings. The first in-camera session is without management present and the second is only with independent directors present. The in-camera meetings of independent directors are presided over by the Lead Director. In addition, the Audit Committee regularly holds sessions with the Corporation’s external auditors without management present to discuss the audit and cooperation from management.

- **Committee Membership**
  All of the members of the following committees are composed entirely of independent directors: Audit Committee, Corporate Governance and Nominating Committee, and Compensation Committee.

- **Independent Advisor**
  Individual directors may, with the authorization of the Chair or the Corporate Governance and Nominating Committee, engage independent advisors at the expense of the Corporation.

**SIZE OF BOARD**
The Corporate Governance and Nominating Committee on an annual basis considers the size of the Board. If it believes changes are warranted it makes a recommendation to the Board. This year it has recommended to the Board, and the Board concurs, that the Board be composed of 7 directors with 5 directors being independent. It was agreed by the Board that this size facilitates open dialogue among directors and effective
decision making but also ensures there are sufficient directors with the appropriate experience and skills, such as in-depth mining and diamond experience, to fulfill its responsibilities.

SERVING ON OTHER BOARDS
Lucara’s directors do not serve on the boards of its competitors. Many do serve on other mining public company boards which may assist these directors in their performance of their duties to the Corporation as such other mining companies may have similar business, regulatory and social issues as Lucara. The following table sets out the public company directorships held by the nominees for this year’s election of directors:

MEETING ATTENDANCE
The Board held 10 meetings in 2015. The Audit committee meets at least every quarter to review the Corporation’s financial statements and MD&A. Other committees meet as necessary to ensure their mandates are performed. Committees of the Board held a total of 16 meetings in 2015. The following is the attendance record for all Board and Committee meetings held during 2015:

POSITION DESCRIPTIONS
The Board has developed and approved a written position description for the Chair of the Board. The Chair’s primary responsibilities are to: act as the effective leader of the Board and ensure that the Board’s agenda will enable it to successfully carry out its duties; provide leadership to the independent directors; organize the Board to function independently of management; preside as chair at Board meetings and communicate with all board members to co-ordinate their input; ensure the accountability of board members; provide for the effectiveness of the Board. The Chair acts as the primary liaison between the Board and management. As noted earlier, the Chair is not independent, and as such, these responsibilities are carried out by the Lead Director.
A general position description for all chairs of the Board’s committees has been approved by the Board. The mandates of each committee are also approved by the Board. These mandates provide the committee chairs with specific responsibilities relating to the committee that they chair. On an annual basis each committee mandate is reviewed by the applicable committee and changes are recommended to the board for approval if applicable.

The Board and the CEO have developed a written description for the CEO. The CEO has, subject to the authority of the Board, general supervision of the business and affairs of the Corporation. Responsibilities include making recommendations to the Board regarding the implementation, performance and monitoring, as the case may be, of each of the items referred in the Board Mandate. Generally, the Board has delegated to the CEO, the authority to transact business or approve matters that are in the ordinary course of business provided these matters do not exceed material levels of expenditures on the part of the Corporation. The Board has established clear limits of authority for the CEO, which are described in the Corporation’s Policy of Authorizations.

**ASSESSMENT OF BOARD PERFORMANCE**

At the beginning of the year, the Corporate Governance and Nominating Committee distributes a Board effectiveness assessment to directors. This assessment questions members as to their level of satisfaction with the functioning of the Board, its interaction with management and the performance of the standing committees of the Board. Board members conduct peer reviews and a self-assessment regarding their effectiveness as a Board member as part of this assessment process. To ensure the assessment process is candid, the individual assessments are returned on a confidential basis to the Chair of the Corporate Governance and Nominating Committee with a copy to the Corporate Secretary. The results are compiled for the Corporate Governance and Nominating Committee. The Committee reviews and discusses the results and makes recommendations to the Board regarding any action that may be deemed necessary or advisable to ensure the Board continues to function effectively and adequately perform its mandate. The Board aims for a 100% compliance rate for completion of the assessment by directors, which was achieved this year. The peer reviews and self-assessments by Directors are considered as part of the director nomination process. Following the assessment process held in Q1 of 2016, the directors concluded that the Board and the Board Committees function very effectively.

The effective performance of the Board is also monitored by the completion of its workplan outline and completion by the Committees of their workplan outlines. Workplan outlines are created for the year which cover standard items to be dealt with at meetings and any additional items for that year.

**ORIENTATION AND CONTINUING EDUCATION**

Included in the Corporate Governance and Nominating Committee’s mandate is the requirement to develop, with the assistance of management, an orientation and education program for new recruits. As part of the orientation for all new members, opportunities are provided for the director to meet with other directors and members of Lucara’s executive team to discuss the nature and operation of the Corporation’s business. The following is also reviewed with each new member: (i) information and materials regarding the Corporation, including the role of the Board and its committees; and (ii) the legal obligations of a director of the Corporation. Each new Board member has access to a comprehensive package of material regarding Lucara through the Corporation’s Board portal service. A more specific orientation program is developed and tailored to meet the specific needs of a new director. For example, if the new director is highly sophisticated with regard to diamond mining matters, orientation on that matter would not be necessary or if a director has a high level of financial expertise, finance orientation may not be included.

With regard to continuing education for Board members, the Corporate Governance and Nominating Committee’s mandate is to provide for such education for all directors with the assistance of management. As part of the annual director assessment process, directors are canvassed for their input on what additional information would assist them in increasing their effectiveness as directors. The Corporate Governance and Nominating Committee considers directors’ responses and makes recommendations.
Site visits are viewed as an important piece of directors’ education and understanding of the Corporation’s business. A site visit was held in June 2015 for the directors to tour the Corporation’s main mining operation, the Karowe mine in Botswana, as well as the head office and Sales & Sorting offices of its subsidiary, Boteti Mining (Pty) Limited located in Gaborone, Botswana. These visits gave directors an opportunity to interact with employees and community members as well as tour the facilities.

Directors are regularly informed by the CEO, verbally and through a written quarterly directors’ report, of strategic issues affecting Lucara, including the competitive environment, the Corporation’s performance and developments, including risks, that could materially impact the Corporation.

All Board members completed an on-line anti-bribery training session held in 2015 that was provided to Lucara employees and directors. Directors are also provided with information regarding legislative changes and governance trends. The Corporation arranges for legal counsel and industry experts to provide status updates and education. In May 2016, a training session is planned for directors by the law firm Blake, Cassels & Graydon LLP to cover the requirements under the new Extractive Sector Transparency Measures Act and the proposed OSC Whistleblower Program. Other plans for 2016 include semi-annual presentations on diamond marketing to increase directors’ knowledge and understanding in this key area for the Corporation.

**NOMINATION OF DIRECTORS**

The Corporate Governance and Nominating Committee, which is composed of all independent Board members, has the responsibility for proposing nominees for directors to the Board. To assist them in this exercise the Board has approved Guidelines for the Composition of Lucara’s Board. These guidelines specify the below listed qualities for consideration when evaluating the composition of the Board of Directors and when nominating potential candidates. When tabling these Guidelines, the Board of Directors acknowledged that the qualities listed were not intended to be exhaustive and were not listed in terms of their importance. In addition, the Guidelines require the Corporate Governance and Nominating Committee to seek diversity in perspectives, by considering qualified candidates with relevant education and experience of any age, gender and background. Also to ensure adherence to the Board’s Board and Executive Officer Gender Diversity Policy, which is outlined below, the Guidelines require that the Committee actively seek out highly qualified women to include in the pool from which Board nominees are chosen.

- Financial accreditation and/or financial literacy
- Sound business experience and expertise
- Corporate governance experience
- Industry specific experience and knowledge
  - Mining
  - Environment
  - Safety and Occupational Health
- Experience in corporate operations
- Financing, M&A experience
- Strong board skills, such as:
  - Integrity
  - Networking abilities
  - Interpersonal skills
  - Ability to think strategically and act independently
- Independent, as such term is defined by the Canadian Securities Administrators
- Not previously bankrupt
- Prior personal history that is acceptable to regulators
- Willing to devote sufficient time and effort to board duties

To identify potential nominees that possess the desired skills and competencies, the Committee members may
utilize their extensive knowledge of the industry and personal contacts. In addition, the Board and management may also propose candidates to the Committee or the Committee may, at the corporation’s expense, retain external consultants to assist in the search for suitable director nominees.

The Corporate Governance and Nominating Committee has approved a form of a Board Candidacy Questionnaire which potential candidates are required to complete as part of the nomination process. The information provided in this form is used to evaluate a candidate’s compliance with the Guidelines.

GENDER DIVERSITY- EXECUTIVE OFFICERS AND BOARD

In 2014, the Board adopted a Board and Executive Officer Gender Diversity Policy (the “Diversity Policy”). This policy formalizes the following vision for Lucara:

*The Company recognizes the importance of women having a greater representation at key decision making points in organizations particularly with regard to representation on boards and executive officer positions. The Company believes that a diverse board and executive management structure, including diversity with regard to gender, enhances the decision making of the Board and at senior management levels.*

As noted above, with regard to gender diversity and the Board, measures taken to ensure the policy is effectively implemented include the commitment imposed on the Corporate Governance and Nominating (“CGN”) Committee to actively seek out highly qualified women to include in the pool from which Board nominees are evaluated and chosen. This commitment is documented in the Guidelines for the Composition of Lucara’s Board.

With regard to gender diversity and senior management, measures taken to ensure the policy is effectively implemented is the mandate set out in the Diversity Policy that management of Lucara shall, as part of the hiring process of executive officers, actively seek out women, having the necessary skills, knowledge and experience, to evaluate as potential candidates. The Diversity Policy also states that the ultimate decision by management to recommend a candidate for appointment as an executive officer shall be made on merit and the contribution the candidate can bring to the position.

At the current time, women make up 29% of Lucara’s Board and 25% of Lucara’s executive officers. In addition, women hold 50% (2 of the 4) Board Committee chair positions. The CGN Committee tracks this information on an annual basis and presents it to the Board. As noted in the below chart, the percentage of women holding executive officer positions increased in 2015 from 20% to 25%.

*Executive Officer means an individual who is:
  * a chair, vice-chair or president;
  * a chief executive officer or chief financial officer;
  * a vice-president in charge of a principal business unit, division or function including sales, finance or production; or performing a policy-making function.
Pursuant to the Diversity Policy, the CGN Committee is mandated to discuss targets for promoting diversity and make recommendations to the Board. At its February 2016 meeting, the CGN Committee discussed the setting of diversity targets and recommended that with regard to Board Diversity that a gender diversity target be adopted for the Board this year that at least 25% of the Board members should be women. This recommendation was adopted by the Board. In order to achieve this objective, two of the nominees for election to the Board at the 2016 AGM will be women and therefore the objective should be achieved if the shareholders elect the proposed nominees.

With regard to a gender diversity objective for executive officer positions, the CGN Committee did not recommend a specific target be set for 2016 given the infrequent turnover of executive level positions. The CGN Committee recommended, and the Board agreed, that any executive officer appointments be reviewed with the level of representation of women in executive officer positions in mind and consistent with the Diversity Policy, that management of the Company, as part of the hiring process of Executive Officers: (i) actively seek out women having the necessary skills, knowledge and experience to evaluate as potential candidates; and (ii) appointments be made based on a balance of criteria, including the merit, and experience of the candidate plus the needs of the Company at the relevant time.

Pursuant to the terms of the Diversity Policy, the CGN Committee is responsible for monitoring the policy and reporting to the Board on the achievement of any targets set and it is also responsible to review the policy and make recommendations on changes to the Policy to the Board.

**DETERMINATION OF DIRECTORS COMPENSATION**

The Compensation Committee recommends the amount and form of the compensation of directors. In making recommendations to the Board, it considers the time commitment and responsibilities required to be met by directors. The Committee is also cognizant that the recommended compensation for directors must not compromise their independence. The Committee retains expert advice to assist in making recommendations on director’s compensation. In late 2014, an external consultant, Roger Gurr & Associates was engaged by the Committee to assess the market competitiveness of director’s compensation through a benchmarking exercise. The Board after taking into account the Committee’s recommendations determines the amount and form of compensation, which is disclosed in this Circular at pages 34 and 35.

**DIRECTOR RETIREMENT POLICY AND TERM LIMITS**

The Board has not adopted a retirement policy or limits regarding the time a director can serve. The following sets out the current tenure for Lucara’s seven nominated directors:

<table>
<thead>
<tr>
<th>Number of Directors</th>
<th>Tenure (Years)</th>
</tr>
</thead>
<tbody>

<td>Nine</td>
</tr>
<tr>
<td>1</td>

<tr>

</tbody>
</table>

The Board recognizes that term limits can ensure Board refreshment and new perspectives. However, Lucara’s long serving directors have significant in-depth knowledge of Lucara and its business. Lucara is entering its full fourth year of operations with its major asset, the Karowe diamond mine, and its long serving directors are highly valued for their expertise. They can provide historical context for consideration in corporate strategic decision making. In addition, these directors have industry connections which are very important to Lucara. The Board believes the risk of imposing director term limits and thereby losing long serving directors who have in-depth knowledge and understanding of the Corporation will not serve Lucara or its shareholders. In addition, the Board believes that its robust assessment process which includes regular evaluations of the Board, committees and directors provides a mechanism to promote Board renewal and regularly assess Board members’ effectiveness. The Board acts on the results of its assessment process. By way of example, it recommended an increase to the number of directors to seven in 2014 and nominated a new director with in-
depth financial expertise.

COMMITTEES OF THE BOARD
To assist the Board with its responsibilities, the Board has established four standing committees: the Audit Committee, the Compensation Committee, the Corporate Governance and Nominating Committee, and the Safety, Health, Environmental and Community Relations Committee. The Board may form other committees from time to time as appropriate to address matters the Corporation is faced with. Each Committee has a written mandate and it reviews its mandate annually. Also, as discussed above, each Committee has a work outline for the year which covers standard items to be dealt with at committee meetings and any additional items for that year. The following is a brief summary of the key functions, roles and responsibilities of the Board committees.

Audit Committee
The Audit Committee consists of three independent directors. The current members are Marie Inkster (Chair), Brian Edgar and Eira Thomas, all of whom are financially literate as such term is defined in National Instrument 52-110.

The Audit Committee assists the Board in matters relating to external auditors and the external audit process, financial reporting and public communication, risk management, security, and certain other key financial matters. In fulfilling its role, the Audit Committee monitors the effectiveness and integrity of the Corporation’s financial reporting, management information and internal control systems.

The Audit Committee also oversees and annually reviews the Corporation’s code of business conduct and ethics (see “Ethical Business Conduct” on page 20 of this Circular).

The Audit Committee reviews and approves, with management and external auditors, significant financial reporting issues, the conduct and results of the annual audit, and significant finance, accounting and disclosure policies and other financial matters. The Audit Committee also oversees the financial reporting processes of the Corporation, by reviewing the Corporation’s core disclosure documents, being its annual and interim financial statements, MD&A and annual information form.

The Audit Committee plays a key role in relation to the Corporation’s external auditors. It initiates and approves their engagement or termination, subject to shareholder approval, and monitors and reviews their independence, effectiveness, performance and quality control processes and procedures. PricewaterhouseCoopers LLP (“PwC”) have been Lucara’s auditors since 2010. The Audit Committee pre-approves all services provided by PwC. The fees paid to PwC during 2014 and 2015 were as follows:

\(^{(1)}\) Audit fees represent the aggregate fees billed by the Corporation’s auditors for audit services.

\(^{(2)}\) Audit-related fees represent the aggregate fees billed for assurance and related services by the Corporation’s auditors that are reasonably related to the performance of the audit or review of the Corporation’s financial statements and not disclosed in the Audit Fees column.

\(^{(3)}\) Tax fees represent the aggregate fees billed for professional services rendered by the Corporation’s external auditor for tax compliance, tax advice and tax planning.

\(^{(4)}\) All other fees represent the aggregate of fees billed for products and services provided by the Corporation’s auditors other than services reported under clauses (1), (2) and (3) above.

The Audit Committee reviews the Corporation’s policies and practices with respect to cash management, insurance, and taxation. It also ensures that management has procedures in place that facilitate compliance with laws relating to insider trading and continuous disclosure. For additional information about the Audit Committee,
including the Audit Committee Charter, see “Audit Committee Information” in Lucara’s Annual Information Form dated March 21, 2016, which is available on the Corporation’s website or on SEDAR at www.sedar.com.

**Corporate Governance and Nominating Committee**
The Corporate Governance and Nominating Committee consists of three independent directors: Brian Edgar (Chair), Paul Conibear and Eira Thomas. The Committee is responsible for developing and monitoring the Corporation’s approach to corporate governance issues.

The Corporate Governance and Nominating Committee oversees the effective functioning of the Board, ensures that the Board can function independently of management, identifies possible nominees for the Board, develops an orientation program for new recruits to the Board and provides, with the assistance of management, director education opportunities. It has also set up a system for an annual review of the Corporation’s material policies by applicable Board committees.

The Corporate Governance and Nominating Committee has been mandated under the Board and Executive Officer Gender Diversity Policy to perform certain functions as described on page 18 of this Circular under the section “Gender Diversity - Executive Officers and Board.”

In addition, the Corporate Governance and Nominating Committee annually reviews and makes recommendations to the Board with respect to: (i) the appointment of a lead director; (ii) the size and composition of the Board; (iii) the appropriateness of the committees of the Board; and (iv) committee appointments. The Committee delivers this annual statement on corporate governance to the Board for inclusion in the Circular.

**Compensation Committee**
The Compensation Committee consists of three independent directors: Paul Conibear (Chair), Brian Edgar and Richard Clark. For more information regarding the nature, scope, roles and responsibilities of the Compensation Committee, see pages 26 and 27 of this Circular.

**Safety, Health, Environmental and Community Relations Committee (“SHECR Committee”)**
The SHECR Committee consists of three directors. Two are independent, Eira Thomas (Chair) and Richard Clark. William Lamb, the third member of the Committee, is the Corporation’s CEO and is not independent. It was determined that Mr. Lamb’s knowledge of the operations of the Corporation and previous operational mining experience would assist the Committee in fulfilling its mandate. The managing director of the Lundin Foundation is also invited to all SHECR Committee meetings to provide updates on activities related to community relations. The Committee assists the Board of Directors in its oversight of Lucara’s operations (including the operations of its active subsidiaries) in the following areas:

- safety, health, environment and community risks
- compliance with applicable legal and regulatory requirements associated with safety, health, environmental and community matters
- performance in relation to safety, health, environmental and community matters
- performance and leadership of the safety, health, environment and community function external annual reporting in relation to safety, health, environmental and community matters

**ETHICAL BUSINESS CONDUCT**
The Corporation is committed to conducting its business in compliance with the law and the highest ethical standards. Accordingly, the Board has adopted a written Code of Business Conduct and Ethics (the “Code”) for directors, officers and employees of the Corporation. The Code is available on the Corporation’s website and has been filed on and is accessible through SEDAR at www.sedar.com.

If directors, officers or employees observe or become aware of an actual or potential violation of the Code or
of any law or regulation, whether committed by the Corporation’s employees or by others associated with the Corporation they have the responsibility to report the violation and to cooperate with any investigation. Reports may be submitted on a confidential basis to the Chair of the Corporation’s Audit Committee. Following receipt of any complaints, the Chair of the Audit Committee, will investigate each matter so reported and report to the Board. The Corporation will not tolerate any reprisals against employees, officers and directors for good faith reporting of compliance concerns or violations.

The Audit Committee has the primary authority and responsibility for the enforcement of the Code, subject to the supervision of the Board of Directors. It reviews the Code on an annual basis and makes recommendations regarding compliance monitoring. In Q1 2016, training sessions on compliance with the Code of Conduct were conducted by the CEO and the VP Legal for employees and contractors at the Karowe mine site to enhance understanding and ensure compliance with the Code.

With regard to conflicts, all directors have an obligation to act in the best interest of the Corporation. In accordance with the Code, any situation that presents an actual or potential conflict between a director’s personal interests and the interests of the Corporation must be reported to the Chair of the Corporation’s Audit Committee. In addition, the Corporation’s articles contain disclosure and voting restrictions that must be followed when a director or officer has an interest in an agreement or transaction with the Corporation being considered by the Board. The Audit Committee is mandated to review and monitor all related party contracts that may be entered into by the Corporation.

In addition to the Code, the Audit Committee has established a Policy and Procedures for the Receipt, Retention and Treatment of Complaints Regarding Accounting or Auditing Matters or “Whistleblower Policy” to encourage employees, officers and directors to raise concerns regarding accounting, internal controls or auditing matters, on a confidential basis free from discrimination, retaliation or harassment.

Another example of the Board’s commitment to the highest ethical standards is the Corporation’s Corporate Social Responsibility Charter. The Charter specifies among other things that Lucara will impact positively on the quality of life of members of the local community and conduct its activities to meet or exceed standards in the protection and promotion of human rights. As part of its commitment to meet the Charter, the Corporation is participating in a sustainability reporting process. This process is being monitored by the Safety, Health, Environmental and Community Relations Committee utilizing the Global Reporting Initiatives (GRI) guidelines. A reporting cycle has been set up which involves a program of data collection, communication and responses. A report is provided to shape company strategy and policy and improve performance. One of the areas that the report provides information on is the Corporation’s social performance. Social performance includes for example, an evaluation of the corporation’s impact on human rights. This monitoring assists the Corporation in ensuring that its business is conducted to meet high ethical standards. As recognition of its Corporate Social Responsibility activities, the Corporation was awarded the Prospectors & Developers Association of Canada (PDAC)’s 2016 Environmental & Social Responsibility Award for its stakeholder initiatives, community engagement and its focus on sustainable practices.

**DIFFERENCES SWEDISH CORPORATE GOVERNANCE CODE**

The Nasdaq Stockholm exchange in Sweden has a set of rules of corporate governance as set forth in the Swedish Corporate Governance Code (the “Swedish Code”). Lucara has a secondary listing on the Nasdaq Stockholm exchange, however as its primary exchange is the TSX exchange it follows the Corporate Governance rules applicable to a TSX listed Company under Canadian securities laws (“Canadian Corporate Governance Rules”). There are differences between shareholder rights in Sweden, including the Swedish Code requirements, and Canadian Corporate Governance Rules. A description of the key differences is on Lucara’s website.

**SHAREHOLDER COMMUNICATIONS**

Structures are in place to ensure effective communication between the Corporation, its shareholders and the public. The Corporation has established a Disclosure Policy which is available on its website or on SEDAR at
www.sedar.com. This Policy sets out the internal structure that Lucara has established to effectively manage the dissemination of material information. In addition, the Corporation’s investor relations group responds to shareholders concerns on an individual basis. Shareholders are informed of corporate developments by the issuance of timely press releases which are concurrently posted to the Corporations’ website and SEDAR.

Shareholders or other interested parties may communicate directly with the Chair of the Board, the Lead Director and other independent directors by writing to them at Lucara’s Vancouver office, at the following address (envelopes should be marked Confidential and addressed to the attention of the appropriate party):

SECTION 4 – EXECUTIVE COMPENSATION

2015 COMPENSATION DISCUSSION AND ANALYSIS

Objectives
The objectives of Lucara’s executive compensation program are:

- to structure remuneration packages that are sufficiently attractive to recruit, retain and motivate qualified, high caliber executives
- provide executives with compensation that is in accordance with existing market standards
- align the interests of Lucara’s executive officers with those of its shareholders
- link individual executive compensation to the performance of both Lucara and the individual executive

Elements of Compensation and Reward Structure

Executive compensation is comprised of three elements:

Base salaries. This is the basic method of compensating executives. Base salaries are reviewed using a comparator group (see Compensation Benchmarking described below), thereby enabling the Corporation to compete for and retain executives critical to the Corporation’s long-term success. Lucara’s executives have employment contracts which entitle them to receive a base salary provided they fulfill the job responsibilities associated with their position description. As payment of base salaries does not depend on the performance of any specific targets or goals it is not viewed as “at risk” compensation.

Short Term Incentives. Executives have no contractual right to bonuses or short term incentives and this form of compensation is clearly “at risk”. Such payments are made solely in the discretion of the Board. Short term incentives are considered by the Board on the recommendation of the Compensation Committee. The decision by the Compensation Committee to recommend payment of short term incentives is based on executives meeting certain criteria. The Board has approved a framework for short term incentive payments (see the Short Term Incentive Program Framework described in Performance Goals below). The Board uses the payment of short term incentives to motivate executives to meet short term performance goals for the benefit of the Corporation.

Long Term Incentives. The Corporation’s current Long Term Incentive program includes both a stock option plan and a share unit plan which are administered by the Board. The Compensation Committee makes recommendations to the Board for grants of stock options or share units, as applicable. Normally, when hiring executives, Lucara commits to an initial stock option issuance. This assists the Corporation in recruiting high performing individuals and then incentivizes such executives to drive the longer term growth of the business. This form of compensation aligns the
interests of executive officers with the longer term interests of shareholders as the exercise price of options is set at the market value of the Corporation’s shares at the time of the grant. As options vest over time (normally, three equal annual installments beginning one year from the grant date) they are an important executive retention strategy for Lucara. On an annual basis, the Compensation Committee considers, taking into account Lucara’s long term goals, whether further stock option grants and share units should be recommended to the Board. Stock options and share units are another form of compensation paid by Lucara that is “at risk”.

The Corporation recognizes that its compensation package has to be sufficient to attract and retain the right level of skill, expertise and talent in an increasingly competitive global market. The structure of the remuneration package must be well-balanced across the short, medium and longer term elements, so that it is both attractive to the individual and cost effective for the Corporation.

In summary, Lucara uses base salary compensation to reward executives for effectively fulfilling their employment responsibilities, short term incentives to reward executives for meeting short term performance goals and stock options/share unit awards as a retention strategy and to reward executives for long term business growth. By providing base salary at a competitive level the Corporation is able to attract talented candidates. However, the short term incentive (discretionary bonuses) provide executives with the opportunity to achieve superior total annual reward through their own delivery of excellence at individual and business levels. Finally, the longer term reward element (stock option grants and share unit awards), provide the opportunity to build ownership and growth in the medium and longer term future in line with the opportunities for success afforded to the shareholders.

Compensation Benchmarking

Peer Group – Base Salaries 2015 and 2016
In December 2014, the Compensation Committee benchmarked executive’s base salaries for 2015 using the following 11 comparator group of diamond producers and developers as well as comparable precious metal producers:

**Diamond Developers and Producers:**
- Petra Diamonds Limited
- Dominion Diamond Corporation
- Firestone Diamonds PLC

**Precious Metal Producers:**
- First Majestic Silver
- Fortuna Silver Mines Inc.
- Midway Gold Corp
- Mountain Province Diamonds Inc.
- Stornoway Diamond Corporation
- Gem Diamonds Ltd.
- Kirkland Lake Gold Inc.
- Platinum Group Metals

This group of companies were carefully selected based on their comparability to Lucara in business and size. After reviewing the data, the Compensation Committee recommended, and the Board accepted in December 2014, that effective January 1, 2015, the base salaries associated for the positions of CEO, Vice President, Mineral Resource and Vice President, Legal and Corporate Secretary be increased to CAD$500,000, CAD$250,000 and CAD$200,000, respectively and all other executive base salaries be adjusted by a 2% increase.

In December 2015, the Compensation Committee benchmarked executive’s base salaries for 2016 using the same comparator group with the exception of the deletion of Midway Gold Corp. The Compensation Committee recommended, and the Board accepted in December 2015, that effective January 1, 2016, the base salaries associated for the positions of CEO and Vice President, Mineral Resource be increased to CAD$575,000 and CAD$275,000 respectively, with no salary increases for other executives. The Compensation Committee
also used the following subset of companies, being diamond producers, for the purpose of measuring a stock performance measure related to the Short Term Incentive Plan incentive assessment:

Diamond Producers:
Petra Diamonds Limited
Dominion Diamond Corporation
Gem Diamonds Ltd.

In February 2016, the Compensation Committee discussed the peer group to be used for the purpose of 2016 remuneration evaluation and agreed that the peer group used in December 2015 will be used but a reassessment of the relevance of each peer company will take place towards year end when salaries are set for the following year.

**Other Compensation Benchmarking**

At the end of 2014, Lucara retained Roger Gurr & Associates to perform benchmarking exercises regarding short term incentive targets and long term incentive compensation for executives and also for director compensation.

Roger Gurr and Associates reviewed benchmarking information from mining companies similar in size and stage of development as Lucara. They used the following 16 comparator mining companies, 13 listed on the TSX and 3 diamond companies on the London exchanges, as the comparator group:

- Argonaut Gold Inc.
- Dominion Diamond Corporation
- Endeavour Mining Corporation
- First Majestic Silver Corp.
- Fortuna Silver Mines Inc.
- Gem Diamonds Limited
- Gemfields PLC
- Kirkland Lake Gold Inc.
- Mountain Province Diamonds Inc.
- Nevsun Resources Ltd.
- Petra Diamonds Ltd.
- Primero Mining Corp.
- Rio Alto Mining Limited
- SEMAFO Inc.
- Stornoway Diamond Corporation
- Teranga Gold Corporation

After analyzing the results from Roger Gurr and Associates, the Compensation Committee concluded the following:

- **Short Term Incentive Targets**: no changes to the current target short term incentive opportunities were recommended as the benchmarking results indicated that the current targets are reasonable and are at approximately median levels of the comparator companies
- **Long Term Incentive Program**: Lucara should adopt a systematic, annual award program for long term incentives which would include a combination of stock option awards and share unit awards
- **Directors Compensation**: an increase in director’s compensation as the benchmarking results indicated that Lucara directors were significantly undercompensated compared to their peers, the increase in 2015 for directors compensation is more fully described on Page 34 of this Circular

**Performance Goals**

Lucara uses a performance measurement scheme, a Short Term Incentive Program Framework, focusing on Key Performance Indicators (KPIs) that include operational achievements to assess short term incentive awards. The framework was developed by Roger Gurr & Associates, in consultation with management, and with oversight from the Compensation Committee. The framework sets out the terms under which cash incentives may be made to senior executives. The Framework is subject to the overriding discretion of the Board, on recommendation from the Compensation Committee. The minimum, target and maximum short term incentive are set out as a % of basic salary for executive positions as follows:
The factors used when assessing short term incentives are:

- financial
- operational
- marketing and sales (for certain executives)
- legal (for certain executives)
- discretionary

KPIs are determined for each of these areas and a percentage weight is identified dependent on the executive position. The financial, operational and marketing and sales areas of performance are based on quantitative performance measures, while the discretionary component is a qualitative performance measure.

As noted above, at the end of 2014, the Compensation Committee retained Roger Gurr & Associates to provide benchmarking data from a comparator group of companies and after reviewing the results, the Compensation Committee concluded that the above noted target awards were reasonable.

Alignment Compensation Programs and Risk Management

Risk management is a primary consideration of the Board when implementing its compensation program. It has structured its compensation program to ensure that executive officers are not inappropriately motivated towards shorter-term results or excessive risk taking.

Payments of short term incentives, if any, are not made until performance goals have been met. Managing risk in the areas of safety, environmental and corporate social responsibility is also extremely important to Lucara and hence the Corporation’s record on safety, environmental and corporate social responsibility is an important factor when considering short term incentives.

With regard to stock options, the Corporation has a stock option plan with vesting provisions over time which reduces the risk of short term decision making. The Board sets standard vesting terms on stock option grants which align optionees’ interests with longer term growth of the Corporation, using 36-month vesting provisions and 4 year option terms.

With regard to share units, pursuant to the terms of the Corporation’s share unit plan, share units awarded do not vest until three years after the date of the award which reduces the risk of short term decision making.

Director and Officer Equity Hedging Prohibition

Lucara’s Board of Directors and executive officers are not permitted to purchase financial instruments, including for greater certainty, prepay variable forward contracts, equity swaps, collars or units of exchange funds that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the director or officer.

Share Ownership Guidelines for Directors

The Board has established share ownership guidelines for non-employee directors to demonstrate their commitment to Lucara’s long-term success and to align their interests with shareholders. Non-employee directors must own or control shares with a value, calculated at the time of stock purchase or at the current share purchase price, whichever is greater, equal to twice the value of their annual director retainers. These shares must be acquired within four years of joining the Board.
Share Ownership Guidelines for Executive Officers

The Board also believes it is important for senior management to have equity ownership in the Corporation to demonstrate their commitment to Lucara’s long-term success and to align with shareholders. This is consistent with the nature of the Corporation’s long term incentive program which includes the issuance of both stock options and share units. The minimum ownership levels of common shares that Executive officers are expected to attain are:

<table>

<tr>

<th># Shares</th>

</tr>
<tr>
<td>Chief Financial Officer and Chief Operating Officer</td>
<td>200,000</td>
</tr>
<tr>
<td>Other Vice Presidents</td>
<td>100,000</td>
</tr>
</tbody>
</table>

Under the guidelines, the ownership level should be achieved by an executive within four years of the implementation of the guidelines (February 23, 2016) or if an officer is appointed after that date, within four years of their appointment as an officer. Unvested share units held by an executive will count towards the achievement of the applicable ownership guideline.

Consultant Work and Fees

As noted above, at the end of 2014 the Compensation Committee retained Roger Gurr & Associates to review and make recommendations regarding short term incentive targets, long term incentive compensation and director compensation. Roger Gurr & Associates was paid a fee of CAD$25,800 plus GST for these services. No other consulting services were provided by a compensation consultant to Lucara, the Board or a committee of the Board in 2014 or 2015.

Role of Management in Determining Compensation

The accountability for decisions on executive remuneration is within the mandate of the Board with recommendations from the Compensation Committee; however, management has a key role in helping support the Compensation Committee in fulfilling its obligations. For example, the CEO will make specific recommendations to the Compensation Committee with respect to compensation for the other executive officers of the Corporation that are based on the Committee’s compensation philosophy and incentive programs approved by the Committee.

Composition of the Compensation Committee

The Compensation Committee, on behalf of the Board, monitors compensation for the executive officers of the Corporation. The Compensation Committee currently has three members: Messrs. Paul Conibear, Richard Clark and Brian Edgar. Since 2007, the Compensation Committee has maintained a mandate. It meets as frequently as necessary in order to fulfill its responsibilities. In 2015, the Committee met five times to address matters pertaining to its Mandate.

Skills and Experience of Compensation Committee Members

All members of the Committee have direct experience which is relevant to their responsibilities as Compensation Committee members. All members are or have acted as CEO for a public company, and therefore have a good understanding of how compensation works and how to motivate staff. They also have financial expertise which allows them to assess the costs versus benefits of compensation plans. The members combined experience in the resource sector provides them with the understanding of the Corporation’s success factors and risks which is very important when determining metrics for measuring success.
The Mandate and Responsibilities of Compensation Committee

The following is a summary description of the mandate and responsibilities of the Compensation Committee as it relates to executive compensation:

• to review and approve corporate goals and objectives relevant to executive compensation, including the evaluation and performance of the CEO in light of those corporate goals and objectives, and to make recommendations to the Board with respect to compensation levels (including the award of any cash short term incentives or share ownership opportunities);

• to consider the implementation of short and long-term incentive plans, including equity-based plans, proposed by management, to make recommendations to the Board with respect to these plans and to annually review such plans after their implementation; and

• to annually review any other benefit plans proposed by management and to make recommendations to the Board with respect to their implementation.

The Compensation Committee reviews its mandate on an annual basis and recommends changes to the Board if deemed appropriate.

COMPENSATION OF NAMED EXECUTIVE OFFICERS

For the purposes of this Circular, “Named Executive Officer” means the Chief Executive Officer, the Chief Financial Officer and the three other most highly compensated executives of the Corporation, which for 2015 were the following officers:

2015 Named Executive Officer Compensation Results

The Board reviewed Lucara’s 2015 performance and the analysis and recommendations of the Compensation Committee and approved the following decisions on executive compensation for 2015.

(i) Base Salaries

As discussed above, the Compensation Committee considered benchmarking data at the end of 2014 for 2015 salaries. After reviewing the data, the Compensation Committee recommended, and the Board accepted in
December 2014, that effective January 1, 2015, the base salaries associated for the positions of CEO, Vice President, Mineral Resource and Vice President, Legal be increased to CAD$500,000, CAD$250,000 and CAD$200,000, respectively and all other executive base salaries be adjusted by a 2% increase.

(ii) **Long Term Incentives**
Lucara’s Named Executive Officers each received stock grants and share unit awards in February 2016 relating to 2015 compensation as detailed in the Summary Compensation Table on page 30 of this Circular.

(iii) **Annual Short Term Incentives**
The Compensation Committee utilized Lucara’s Short Term Incentive Program Framework to assess short term incentives. Short term incentives were paid in February 2016 but earned for 2015 performance results. The following describes for 2015, the Named Executive Officers’ performance goals, performance metrics achieved and the results considered by the Compensation Committee as part of the assessment process.

**2015 Performance Goals of Named Executive Officers**
The CEO’s short term incentive compensation is based 75% on the achievement of group financial and operating targets with the remaining 25% based on his individual performance. For the other Named Executive Officers the short term incentive is based 75 to 80% on the achievement of group financial operating and operating targets with the remaining 20 to 25% based on individual performance related to their specific areas of responsibility.

1. **CEO 2015 Goals:**
The individual performance of the CEO is measured against the goals, objectives and standards set annually by the Corporation’s Compensation Committee, which are used as metrics in establishing the amount of short term incentive (“STI”) payment awarded at the end of each financial year. The metrics used for the CEO in fiscal 2015 were based on (1) group cash flow and return on equity (2) operational performance (3) sales and marketing objectives and (4) individual objectives. The following table sets out the weighting for each of the group and individual components of the CEO’s STI. The components are summed to determine the STI award.

2. **Other Named Executive Officers 2015 Goals:**
The maximum STI award which could be achieved ranged from 70% to 90% of base salary for the balance of the Named Executive Officers. Actual STI compensation is based on the degree to which the Corporation achieves its objectives as well as personal metrics. The personal metrics were selected based on those parts of the business over which the executive had influence. The following table sets out the respective weighting and individual components of the STI awards for each of the other Named Executive officers. The share performance as set out in the graph does not necessarily indicate future price performance. Amounts below are stated in Canadian dollars. The shares trade on the TSX under the symbol “LUC”.

Following the trend in the Corporation’s stock price performance as noted in the graph, average total Named Executive Officer compensation decreased in 2012 from 2011 then increased in 2013 and 2014. Average total Named Executive Officer compensation decreased in 2015, which reflects an overall decrease in revenues and operating margins compared to the prior year. The average totalNamed Executive Officer Compensation in 2015 did not reflect the recovery of the 1,109 Lesedi La Rona diamond, the second largest gem quality rough diamond ever recovered, as compensation for this recovery is planned to be reflected in the Named Executive Officer’s compensation in the year that it is sold.

This column represents stock option awards earned in respect of the corresponding year’s performance. Awards for 2015 performance were made in 2016 and awards made for 2014 performance were made in 2015 with no awards granted for 2013 performance. The amounts represent the fair value, on the date of grant, of awards made under Lucara’s stock option plan. The value has been determined using the Black-Scholes model. The amount presented in the table represents the fair value of the vested and unvested portion of the options granted for the period. For accounting purposes, the fair value is amortized over the applicable vesting periods. Options values were calculated in Canadian dollars and translated into United States dollars using the following exchange rates for the following option grants awarded to the Named Executive Officers: CAD$1.00=US$0.84 for May 14, 2015 grants and CAD$1.00=US$0.73 for February 26, 2016 grants. It should be recognized that the actual future value will be based on the difference between the market value at time of exercise and the exercise price. Therefore, the value attributed to the stock options under the Black-Scholes model does not necessarily correspond to the actual future value that will be realized. The Black-Scholes option pricing model incorporates key assumptions dealing with risk free interest rate, expected stock price volatility, expected life and expected dividend yield.

This column represents share unit awards earned in respect of the corresponding year’s performance. Awards for 2015 performance were made in 2016 and awards made for 2014 performance were made in 2015. The Share Unit Plan did not exist prior to 2015. Share units’ values were calculated in Canadian dollars based on the fair value of Common Shares on: (i) the grant date of May 14, 2015 of CAD$2.15; and (ii) the grant date of Feb 26, 2016 of CAD$2.45 and translated into United States dollars using the following exchange rates for the following share unit grants awarded to the Named Executive Officers: CAD$1.00=US$0.84 for May 14, 2015 grants and CAD$1.00=US$0.73 for February 26, 2016 grants.

This column represents STI awards earned in respect of the corresponding year’s performance. Payment of the 2013 STI award was made following the year of performance in February 2014. Payment of the 2014 STI award was made following the year of performance in February 2015. Payment for the 2015 STI award was made the following year in February 2016. The following conversion rates, being the Bank of Canada month end February rates of the year following the year of performance were used to convert the STI payments:

- February 23, 2016 rate CAD$1.00=US$0.72, UK£1=USD1.48;
- February 27, 2015 rate CAD$1.00=US$0.80, UK£1=USD1.55; and
- February 28, 2014 rate CAD$1.00=US$0.90, UK£1=USD1.67.

Except for the pension payments to Mr. Day calculated as 15% of base salary, amounts in this column typically consist of benefits such as life insurance premiums, parking benefits and medical/dental plans. The amount also includes for Mr. Lamb accrued holidays paid out for the year ended 2015. The following conversion rates, being the Bank of Canada average annual exchange rates, were used to convert these other compensation payments:

- Financial year ended December 31, 2015 average exchange rate of CAD$1.00=US$0.78, UK£1=USD1.53
- Financial year ended December 31, 2014 average exchange rate of CAD$1.00=US$0.91, UK£1=USD1.64; and
- Financial year ended December 31, 2013 average exchange rate of CAD$1.00=US$0.9706, UK£1=USD1.59.

Mr. Day due to his employment in Botswana through the Corporation’s subsidiary, Boteti Mining (Pty) Limited, is entitled to receive a gratuity equivalent to 15% of his base salary in lieu of pension, payment of the accumulated amount to be made on termination of employment.

If such a termination of his employment had occurred on December 31, 2015, it is estimated Mr. Kondo’s total severance payment would have been US$1,004,311. Payment has been converted to United States dollars using the December 31, 2015 exchange rate of UK£1=US$1.48.

Pursuant to the employment agreement with Mr. Day:

he will be entitled to receive a payment equal to his salary for 18 months and a payment equal to the STI award he earned in the year prior to his termination (providing it is not greater than his annual base salary). Also, in the circumstance of a change of control termination, Mr. Day’s options and share units will become fully vested. If such a termination of his employment had occurred on December 31, 2015, it is estimated Mr. Day’s total severance payment would have been US$1,209,638.

Pursuant to the employment agreement with Mr. Armstrong:

• if Mr. Armstrong’s employment is terminated without cause; or
• upon a change of control of the Corporation to a non-affiliated entity, his employment is terminated or he elects to terminate his employment,

he will be entitled to receive a payment equal to his salary for 12 months and a payment equal to the STI award he earned in the year prior to his termination (providing it is not greater than his annual base salary). Also, in the circumstance of a change of control termination, Mr. Armstrong’s options and share units will become fully vested. If such a termination of his employment had occurred on December 31, 2015 it is estimated Mr. Armstrong’s total severance payment would have been US$35,617. Also, in the circumstance of a change of control termination, Ms. Lecour’s options and share units will become fully vested. If such a termination of her employment had occurred on December 31, 2015 it is estimated Ms. Lecour’s
total severance payment would have been US$426,373. Payment has been converted from Canadian to United States dollars using the following average annual conversion rate CAD$1.00=US$0.72

(1) Based on the closing price of the Common Shares on the TSX on December 31, 2015 of C$2.25 per Common Share, less the exercise price of the in-the-money stock options. These Options have not been, and may never be, exercised and the actual gain, if any, on exercise will depend on the value of the Common Shares on the date of exercise.

(2) The value is based on the closing price of the Common Shares on the TSX on December 31, 2015 of C$2.25.

(3) These values represent all unvested options. One third vesting will occur on the 12, 24 and 36 months after the date of grant, being May 14, 2016, May 14, 2017 and May 14, 2018, respectively.

(4) These values represented all vested options.

(5) These share units were issued in lieu of cash dividends applicable to outstanding share units held when a dividend was paid by the Corporation.

(1) Payments have been converted from Canadian to United States dollars using the following average annual conversion rate for 2015 CAD$1.00 = US$0.78

(2) This amount represents the fair value, on the date of grant of awards made under Lucara’s stock option plan awarded in 2016 relating to director’s compensation for 2015. The value has been determined using the Black-Scholes model. The amount presented in the table represents the fair value of the vested and unvested portion of the options granted for the period. For accounting purposes, the fair value is amortized over the applicable vesting periods. Options fair values were calculated in Canadian dollars and translated into United States dollars using the following exchange rate of CAD$1.00=US$0.73 for February 26, 2016, the date of the option grant. It should be recognized that the actual future value will be based on the difference between the market value at time of exercise and the exercise price. Therefore, the value attributed to the stock options under the Black-Scholes model does not necessarily correspond to the actual future value that will be realized. The Black-Scholes option pricing model incorporates key assumptions dealing with risk free interest rate, expected stock price volatility, expected life and expected dividend yield.

At the end of 2014, the Compensation committee retained Roger Gurr and Associates to perform benchmarking for director compensation. The benchmarking data showed that the directors’ fees were significantly below the peer group and therefore adjustments were recommended and approved by the Board to align the Corporation’s director compensation with its peers. Effective January 1, 2015:

- each non-executive directors’ annual base remuneration was increased from CAD$30,000 to CAD$100,000;
- the Lead Director, the Chair of the SHECR Committee, the Chair of the Corporate Governance Committee and the Chair of Compensation Committee will receive an additional CAD$10,000 per annum; and
- the Chair of the Board and the Chair of the Audit Committee will receive an additional CAD$15,000 per annum.

Lucara also reimburses directors for any reasonable travel and out-of-pocket expenses relating to their duties as directors. No fees were paid for attendance at meetings. The Corporation is obligated to provide all of the directors with liability insurance appropriate to the nature of their responsibilities.

A Share Unit Plan was approved on May 13, 2015 by the shareholders and a Stock Option Plan was also approved by shareholders on the same date. The Share Unit Plan (the “SU Plan”)

The material terms of the SU Plan can be summarized as follows:

- The SU Plan provides that share unit awards (the “SUs”) may be granted by the Board, the Compensation Committee, or any other committee of directors authorized by the Board to administer the SU Plan (the “Committee”).

- 4,000,000 Common Shares are reserved for issuance under the SU Plan, representing approximately 1% of the current issued and outstanding Common Shares.

- Any Common Shares subject to an SU which are cancelled or terminated in accordance with the terms of the SU Plan without settlement will again be available for issuance under the SU Plan.

- The grant of SUs under the SU Plan is subject to the number of the Common Shares: (i) issued to any one participant within any one (1) year period; (ii) insiders of the Corporation, within any one (1) year period, and (iii) issuable to insiders of the Corporation, at any time, under the SU Plan, or when combined with all of the Corporation’s other security based compensation arrangements, shall not exceed 10% of the Corporation’s total issued and outstanding Common Shares, respectively.

- The SU Plan is for the benefit of employees of the Corporation or any subsidiary, including any senior executive, vice president, and/or member of the management team of the Corporation or its subsidiaries.

- An SU is a unit credited by means of an entry on the books of the Corporation to a participant, representing the right to receive one Common Share or cash equal to the market price of the share on the vesting date.

- The number and terms of SUs granted to participants will be determined by Committee and credited to the participant’s account effective on the grant date. Subject to the Committee’s discretion, SUs will vest 36 months from the grant date.
• The entitlement date, or date that the SU’s vest and are eligible for payment, shall be extended if this date occurs during a blackout to 10 days after the end of the blackout and notwithstanding this, must occur no later than 3 years following the end of the year the SU was granted.

• Following the entitlement date, the SUs will be settled by way of the issuance of Common Shares from treasury, cash equal to the market price of Common Shares or a combination of the two methods of settlement as determined by the Committee.

• All grants of SUs shall be evidenced by a confirmation share unit grant letter.

• In the event dividends are paid to shareholders while SUs are outstanding, additional SUs in lieu of any cash dividends will be credited to participants. For the avoidance of doubt, no cash payment will be made to a participant if cash dividends are paid to shareholders other than cash paid to a participant on an entitlement date.

• In the event of a participant’s resignation or employment termination with cause, the SUs will be forfeited and of no further force or effect at the date of termination, unless otherwise determined by the Committee.

• In the event of the participant’s employment termination without cause:
  o all unvested SUs that are not subject to performance vesting criteria will vest, for participants who were continuously employed by the Corporation or any subsidiary for at least two years including any notice period, prior to the date of termination and the Common Shares represented by the SUs held shall be issued as soon as reasonably practical
  o all unvested SUs with performance vesting criteria will remain subject to the normal vesting schedule for participants who were continuously employed by the Corporation or any subsidiary for at least two years including any notice period
  o for participants who were not continuously employed by the Corporation for two years their SUs will be forfeited at the date of termination except as may otherwise be stipulated in the participant’s grant letter

• In the event of death, all unvested SUs will vest and the Common Shares will be issued to the participant’s estate as soon as reasonably practical.

• In the event of the total disability of a participant, all unvested SUs will vest on the date the participant is determined to be totally disabled and the Common Shares will be issued as soon as reasonably practical.

• In the event of a change of control, all SUs outstanding will vest on the date of such change of control.

• All of the termination provisions in the SU plan shall be subject to the terms of any employment/severance agreement between the participant and the Corporation.

• SUs are not transferable other than by will or the laws of dissent and distribution.

• The specific amendment provisions for the SU Plan provide the Committee with the power, subject to the requisite regulatory approval, to make the following amendments without shareholder approval (without limitation):
  o amendments of a housekeeping nature;
  o the addition or a change to any vesting provisions of an SU;
  o changes to the termination provisions of an SU or the SU Plan; and
• Any of the following amendments require shareholder approval:
  o materially increasing the benefits to a holder of SUs who is an insider to the material detriment of the Corporation and its shareholders;
  o increasing the number of Common Shares or maximum percentage of Common Shares which may be issued pursuant to the SU Plan (other than by virtue of adjustments permitted under the SU Plan);
  o permitting SUs to be transferred other than for normal estate settlement purposes;
  o removing or exceeding the insider participation limits of the SU Plan;
  o materially modifying the eligibility requirements for participation in the SU Plan; or
  o modifying the amending provisions of the SU Plan.

**The Stock Option Plan**

The material terms of the Stock Option Plan can be summarized as follows:

• The aggregate number of Common Shares available at all times for issuance under the Stock Option Plan will be 20,000,000, which would represent approximately 5.25% of the Corporation’s current issued and outstanding Common Shares.

• Any option which has been exercised, cancelled or has expired or terminated for any reason in accordance with the terms of the Stock Option Plan will again be available under the Stock Option Plan.
