Cautionary Notes

Certain statements contained in this press release constitute “forward-looking statements”. All statements other than statements of historical fact contained in this press release, including, without limitation, those regarding the Company’s future financial position and results of operations, strategy, proposed acquisitions, plans, objectives, goals and targets, and any statements preceded by, followed by or that include the words “believe”, “expect”, “aim”, “intend”, “plan”, “continue”, “will”, “may”, “would”, “anticipate”, “estimate”, “forecast”, “predict”, “project”, “seek”, “should” or similar expressions or the negative thereof, are forward-looking statements. These statements are not guarantees of future performance and involve assumptions, risks and uncertainties that are difficult to predict. Therefore, actual results may differ materially from what is expressed, implied or forecasted in such forward-looking statements.

Additional factors that could cause actual results, performance or achievements to differ materially include, but are not limited to: the Company’s ability to complete the Acquisition in accordance with the terms disclosed herein, or at all; the Company’s ability to obtain all necessary consents and approvals for the Acquisition; the Company’s dependence on two mineral projects; gold price volatility; risks associated with the conduct of the Company’s mining activities in Botswana and South Africa; regulatory, consent or permitting delays; risks relating to the Company’s exploration, development and mining activities being situated in Botswana and South Africa; risks relating to reliance on the Company’s management team and outside contractors; risks regarding mineral resources and reserves; the Company’s inability to obtain insurance to cover all risks, on a commercially reasonable basis or at all; currency fluctuations; risks regarding the failure to generate sufficient cash flow from operations; risks relating to project
financing and equity issuances; risks arising from the Company’s fair value estimates with respect to the carrying amount of mineral interests; mining tax regimes; risks arising from holding derivative instruments; the Company’s need to replace reserves depleted by production; risks and unknowns inherent in all mining projects, including the inaccuracy of reserves and resources, metallurgical recoveries and capital and operating costs of such projects; contests over title to properties, particularly title to undeveloped properties; laws and regulations governing the environment, health and safety; operating or technical difficulties in connection with mining or development activities; lack of infrastructure; employee relations, labour unrest or unavailability; health risks in Africa; the Company’s interactions with surrounding communities and artisanal miners; the Company’s ability to successfully integrate acquired assets; risks related to restarting production; the speculative nature of exploration and development, including the risks of diminishing quantities or grades of reserves; development of the Company’s exploration properties into commercially viable mines; stock market volatility; conflicts of interest among certain directors and officers; lack of liquidity for shareholders of the Company; risks related to the market perception of junior gold companies; and litigation risk. Management provides forward-looking statements because it believes they provide useful information to investors when considering their investment objectives and cautions investors not to place undue reliance on forward-looking information. Consequently, all of the forward-looking statements made in this press release are qualified by these cautionary statements and other cautionary statements or factors contained herein, and there can be no assurance that the actual results or developments will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, the Company. These forward-looking statements are made as of the date of this press release and the Company assumes no obligation to update or revise them to reflect subsequent information, events or circumstances or otherwise, except as required by law.

Information of a technical and scientific nature that forms the basis of the disclosure in the press release has been approved by Kevin Crossling B.Sc Earth Sciences (Geology and Chemistry), B.Sc Honours in Geology, AusIMM and SACNASP, and a “qualified person” as defined by National Instrument 43-101.

Neither the TSX Venture Exchange nor its regulation services provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
