The solicitation of proxies will be by mail but proxies may also be solicited personally by employees and agents of Lucara at a nominal cost. The costs of solicitation by management will be borne by the Corporation.

Unless otherwise stated, the information contained in this Circular is given as at April 16, 2012 and all dollar amounts are expressed as United States dollars.

YOUR VOTE IS IMPORTANT – PLEASE READ THIS INFORMATION CIRCULAR CAREFULLY AND THEN VOTE YOUR COMMON SHARES, EITHER BY PROXY OR IN PERSON, AT THE MEETING.

The persons named on the proxy form are officers of Lucara. They will vote your Common Shares for you, unless you appoint someone else to be your proxyholder. You have the right to appoint another person to be your proxyholder. If you appoint someone else, he or she must be present at the Meeting to vote your Common Shares.

If you plan on voting your Common Shares by proxy, our registrar and transfer agent, Computershare Trust Company of Canada ("Computershare"), must receive your completed proxy form by 10:00 a.m. (PST) on May 11, 2012, or, in the case of any adjournment or postponement of the Meeting, not less than 48 hours, (excluding Saturdays, Sundays and statutory holidays) prior to the time of the adjourned or postponed Meeting. The audited consolidated financial statements of the Corporation for the year ended December 31, 2011 and the report of the auditor thereon have been provided to shareholders who have validly requested such statements separately and are available on SEDAR at www.sedar.com.

APPOINTMENT AND REMUNERATION OF AUDITORS
The Board of Directors recommend the re-appointment of PricewaterhouseCoopers LLP Chartered Accountants, Vancouver, British Columbia, as auditors of the Corporation to hold office until the termination of the next annual meeting of the shareholders.

As in past years, it is proposed that the remuneration to be paid to the auditors be determined by the Board of Directors. For further information on the external auditors, please refer to the description of the Audit Committee on page 14.

ELECTION OF DIRECTORS
Nominees
Directors are elected annually and the Board of Directors has determined that the number of directors to be elected is seven. The current number of directors that serve on the board is also seven. The Board has assessed the skills and experience that the seven directors standing for election offer and are satisfied the nominees meet the Board’s requirements. Each director elected at the Meeting will serve as a director until the next annual meeting unless he or she resigns or is otherwise removed from office earlier. Unless authority to vote is withheld, shares represented by the Proxies will be voted by the persons named in the Proxy FOR:

- the setting of the number of directors at seven (7); and
- the election of the below named nominees.

All seven nominees are presently members of the Board of Directors and were elected to their present term by a vote of shareholders at a meeting which was accompanied by a management proxy circular. Management does not contemplate that any nominee will be unable or unwilling to serve as a director, but if that should occur for any reason prior to the Meeting, the persons named in the enclosed form of proxy reserve the right to vote FOR another nominee in their discretion, unless the shareholder has specified in their proxy that such shareholder’s Common Shares are to be withheld from voting on the election of directors.

Information regarding each of the proposed nominees, as at December 31, 2011, is set out below. For each nominee the information provided includes:

- a brief biography, age and country of residence

*Corporate Cease Trade Orders or Bankruptcies*

Except as noted below, to the best of management’s knowledge, no proposed director is, or has been within the last 10 years of the date hereof, a director or executive officer of any company that, while that person was acting in that capacity:

- **a)** was the subject of a cease trade or similar order or an order that denied the relevant company access to any exemption under securities legislation, for a period of more than 30 consecutive days;
- **b)** was subject to an event that resulted, after the director or executive officer ceased to be a director or executive officer, in the company being the subject of a cease trade or similar order or an order that
denied the relevant company access to any exemption under securities legislation, for a period of more than 30 consecutive days; or
c) within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets.

Mr. Edgar was a director of New West Energy Services Inc. (NEW-TSX-V) when, on September 5, 2006, a cease trade order was issued against that company by the British Columbia Securities Commission for failure to file its financial statements within the prescribed time. The default was rectified and the order was rescinded on November 9, 2006.

**Individual Bankruptcies**

To the best of management’s knowledge, no director of the Corporation has, within the ten years prior to the date of this Circular, become bankrupt or made a proposal under any legislation relating to bankruptcy or insolvency, or been subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of that individual.

**Penalties or Sanctions**

To the best of management’s knowledge, no person proposed for election as a director of the Corporation has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority or has had any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable security holder in deciding whether to vote for the proposed director.
SECTION 3 - CORPORATE GOVERNANCE

STATEMENT OF CORPORATE GOVERNANCE PRACTICES
Lucara is committed to sound corporate governance. The directors believe it is important for the successful operation of the business. The following provides information about the Corporation’s Board and sets out governance practices now in force.

MANDATE OF THE BOARD OF DIRECTORS
The Board has a formal mandate (see Appendix A) that lists its specific responsibilities including among others:

- Approve the strategic direction of the Corporation
- Identify principal risks of the Corporation’s business and ensure implementation of appropriate risk management systems
- Ensure the corporation has management of the highest caliber
- Oversee Lucara’s communication policy with its shareholders and the public generally

The Board discharges its responsibilities either directly or through its committees.

INDEPENDENCE
The Board believes the majority of its directors must be independent and that the following committees should consist only of independent board members: audit committee, corporate governance and nominating committee and compensation committee. The majority of Lucara’s current directors and its director nominees are independent.

Assessing Independence of Directors
The board is responsible for determining whether a director is independent. It relies on the criteria set by the Canadian Securities Administrators in National Instrument 52-110 Audit Committees and National Policy 58-201-Corporate Governance Guidelines.

The board has reviewed the nominated directors and decided that Lukas Lundin, John Gurney and William Lamb are not independent for the following reasons:

- Mr. Lamb is Lucara’s current President and CEO
- Mr. Lundin, Lucara’s Chairman, was Lucara’s CEO until mid 2010
- Dr. John Gurney indirectly receives a fee from companies that provide consulting services to the Corporation

Meetings of Independent Directors and In-camera Meetings
To facilitate open and candid discussion among directors, a portion of each board meeting held last year was conducted “in camera” i.e. without management present. In addition to these sessions, the Audit Committee, to have an open discussion regarding the audit and cooperation from management, regularly holds sessions with the Corporation’s external auditors without management present. This year, to increase its independence, the Board has revised its mandate to specify that the Independent Directors shall meet on a quarterly basis without both non-independent directors and management present. These meetings of the Independent Directors shall be presided over by the Lead Director.

Chair and Lead Director
The Chair of the Board, Mr. Lundin, is separate from the CEO. As noted above, he is not independent as he held the position of Lucara’s CEO until mid-2010.

On the recommendation of the Corporate Governance and Nominating Committee, the board has appointed a Lead Director to facilitate the independent function of the Board. In the position description for the Chair setting out the responsibilities of the Chair, it is specified that if the Chair is not independent that such responsibilities will be carried out by the Lead Director. In addition, the Lead Director provides leadership for the Board’s independent directors.
SIZE OF BOARD
The Corporate Governance and Nominating Committee on an annual basis considers the size of the Board. If it believes changes are warranted it makes a recommendation to the Board. The current Board size of 7 directors is small enough to facilitate open dialogue among directors and effective decision making but also has a sufficient number of directors to ensure the Board has directors with the appropriate experience and skills to fulfill its responsibilities.

SERVING ON OTHER BOARDS
Lucara’s directors do not serve on the boards of its competitors. Many do serve on other mining public company boards which assists these directors in their performance of their duties to the Corporation as these other mining companies have similar business, regulatory and social issues as Lucara. The following table sets out the public company directorships held by the nominees for this year’s election of directors:

POSITION DESCRIPTIONS
The Board has developed and approved a written position description for the Chair of the Board. The primary responsibilities are to act as the effective leader of the Board and ensure that the Board’s agenda will enable it to successfully carry out its duties, provide leadership to the independent directors, organize the Board to function independently of management, preside as chair at Board meetings and communicate with all board members to co-ordinate their input, ensure their accountability and provide for the effectiveness of the Board. The Chair acts as the primary liaison between the Board and management. As noted earlier, if the Chair is not independent, such responsibilities are carried out by the Lead Director.

A general position description for all chairs of the Board’s committees has been approved. The mandates of each committee are also approved by the Board. These mandates provide the committee chairs with specific responsibilities relating to the committee that they chair.

The Board and the CEO have developed a written description for the CEO. The CEO has, subject to the authority of the Board, general supervision of the business and affairs of the Corporation. Responsibilities include making recommendations to the Board regarding the implementation, performance and monitoring, as the case may be, of each of the items referred in the Board Mandate. Generally, the Board has delegated to the CEO, the authority to transact business or approve matters that are in the ordinary course of business provided these matters do not exceed material levels of expenditures on the part of Corporation.

ASSESSMENT OF BOARD PERFORMANCE
At the beginning of the year, the Corporate Governance and Nominating Committee distributes a board effectiveness assessment to directors. This assessment questions members as to their level of satisfaction with the functioning of the Board, its interaction with management and the performance of the standing committees of the Board. Board members also conduct peer reviews and a self assessment regarding their effectiveness as a Board member. To ensure the assessment process is candid, the individual assessments are returned on a confidential basis to the Chair of the Corporate Governance and Nominating Committee. The Chair compiles the results for the Corporate Governance and Nominating Committee. The Committee reviews and discusses the results and makes recommendations to the Board regarding any action that may be deemed necessary or advisable to ensure the Board continues to function effectively and adequately perform its mandate. The Board aims for a 100% compliance rate for completion of the assessment by directors, which was achieved this year.

The peer reviews and self-assessments by Directors are considered as part of the director nomination process.

The effective performance of the Board is also monitored by the completion of its workplan outline and completion by the committees of their workplan outlines. Workplan outlines are created for the year which cover standard items to be dealt with at meetings and any additional items for that year. Performance against the workplans is monitored by the applicable Chair through the year.

ORIENTATION AND CONTINUING EDUCATION
Included in the Corporate Governance and Nominating Committee’s mandate is the requirement to develop, with the assistance of management, an orientation and education program for new recruits. As part of the orientation for all new members, opportunities will be provided for the directors to meet with other directors and members of Lucara’s executive team to discuss the nature and operation of the Corporation’s business. The CEO will also review with each new member: (i) information and materials regarding the Corporation, including the role of the Board and its committees; and (ii) the legal obligations of a director of the Corporation. Each new board member will also have access to a comprehensive package of material regarding Lucara through the Corporation’s board portal service (described below). A more specific orientation program has not been developed at this time as the Committee believes the orientation should be tailored to meet the specific needs of a new director. For example, if the new director is highly sophisticated with regard to diamond mining matters, orientation on that matter would not be necessary or if a director has a high level of financial expertise, finance orientation may not be included.
With regard to continuing education for board members, the Corporate Governance and Nominating Committee’s mandate is to provide for such continuing education for all directors with the assistance of management. As part of the annual director assessment process, directors are canvassed for their input on what additional information would assist them in increasing their effectiveness as directors. The Corporate Governance and Nominating Committee consider directors’ responses and makes recommendations.

Last year a site visit was organized for the Directors to tour the construction of the Corporation’s new mine in Botswana, Africa and its mining project in Lesotho, Africa. These site visits are viewed as a very important piece of the Director’s education and understanding of the Corporation’s business. One hundred percent of the directors attended the site visit.

Directors are regularly informed by the CEO, either verbally or through the written quarterly director report, of strategic issues affecting Lucara, including the competitive environment, the Corporation’s performance and developments that could materially impact the Corporation.

The Corporation is also organizing corporate governance education for directors through invitations to attend a series of webinex seminars presented by a major law firm.

**NOMINATION OF DIRECTORS**

The Corporate Governance and Nominating Committee, which is composed of all independent Board members, has the responsibility for proposing nominees for directors. To assist them in this exercise the Board has approved Guidelines for the Composition of Lucara’s Board. These guidelines specify the below listed qualities for consideration when evaluating the composition of the Board of Directors and when nominating potential candidates. When tabling these Guidelines, the Board of Directors acknowledged that the qualities listed were not intended to be exhaustive and were not listed in terms of their importance. In addition, the Board encourages the Corporate Governance and Nominating Committee to seek diversity in perspectives, by considering qualified candidates with relevant education and experience of any age, gender and background.

- Financial accreditation and/or financial literacy
- Sound business experience and expertise
- Corporate governance experience
- Industry specific experience and knowledge
  - Mining
  - Environment
  - Safety and Occupational Health
- Experience in corporate operations
- Financing, M&A experience
- Strong board skills, such as:
  - Integrity
  - Networking abilities
  - Interpersonal skills
  - Ability to think strategically and act independently
- Independent, as such term is defined by the Canadian Securities Administrators
- Not previously bankrupt
- Prior personal history that is acceptable to regulators
- Willing to devote sufficient time and effort to board duties

To identify potential nominees that possess the desired skills and competencies, the Committee members may utilize their extensive knowledge of the industry and personal contacts. In addition, the Committee may at the Corporation’s expense, retain external consultants to assist in the search for suitable director nominees.
DETERMINATION OF DIRECTORS COMPENSATION
The Compensation Committee recommends the amount and form of the compensation of directors. In making recommendations to the Board, it considers the time commitment and responsibilities required to be met by directors. The Committee is also cognizant that the recommended compensation for directors must not compromise their independence. The Board after taking into account the Committee’s recommendations determines the amount and form of compensation, which is disclosed in this Circular at page 24.

DIRECTOR RETIREMENT POLICY
The Corporation has no retirement policy for its Directors.

COMMITTEES OF THE BOARD
To assist the Board with its responsibilities, the Board has established four standing committees: the Audit Committee, the Compensation Committee, the Corporate Governance and Nominating Committee and the Safety, Health, Environmental and Corporate Social Responsibility Committee. The Board may form other committees from time to time as appropriate to address matters the Corporation is faced with. Each Committee has a written mandate and it reviews its mandate annually. Also, as discussed above, each Committee has a work outline for the year which covers standard items to be dealt with at the committee meetings and any additional items for that year. Performance against the workplans is monitored through the year. The following is a brief summary of the key functions, roles and responsibilities of the Board committees.

Audit Committee
The Audit Committee currently consists of three independent directors. The current members are Paul Conibear, Brian Edgar, Eira Thomas, all of whom are financially literate as such term is defined in National Instrument 52-110 Audit Committees.

The Audit Committee assists the Board in matters relating to external auditors and the external audit process, financial reporting and public communication, risk management, security, and certain other key financial matters. In fulfilling its role, the Audit Committee monitors the effectiveness and integrity of the Corporation’s financial reporting, management information and internal control systems.

The Audit Committee also oversees and annually reviews the Corporation’ business conduct code compliance program (see “Ethical Business Conduct” on page 15 of this Circular).

The Audit Committee reviews and approves, with management and external auditors, significant financial reporting issues, the conduct and results of the annual audit, and significant finance, accounting and disclosure policies and other financial matters. The Audit Committee also plays a key role in financial reporting, by reviewing the Corporation’s core disclosure documents, being its annual and interim financial statements, MD&A and annual information form.

The Audit Committee plays a key role in relation to the Corporation’s external auditors. It initiates and approves their engagement or termination, subject to shareholder approval, and monitors and reviews their independence, effectiveness, performance and quality control processes and procedures. PricewaterhouseCoopers (“PwC”) have been Lucara’s auditors since 2010. The Audit Committee pre-approves all services provided by PwC. The fees paid to PwC during 2010 and 2011 were as follows:

(1) Audit fees represent the aggregate fees billed for audit services.
(2) Audit-related fees represent the aggregate fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Corporation’s financial statements and not disclosed in the Audit Fees column.
Corporate Governance and Nominating Committee
The Corporate Governance and Nominating Committee consists of three independent directors: Paul Conibear, Brian Edgar and Eira Thomas. The Committee is responsible for developing and monitoring the Corporation’s approach to corporate governance issues.

The Committee has the responsibility in general for developing and monitoring the Corporation’s approach to corporate governance issues. It oversees the effective functioning of the Board, ensures that the Board can function independently of management, identifies possible nominees for the Board, develops an orientation program for new recruits to the Board and provides, with the assistance of management, director education opportunities. It has also set up a system for an annual review of the Corporation’s material policies by applicable board committees.

The Corporate Governance and Nominating Committee also annually reviews and makes recommendations to the Board with respect to: (i) the appointment of a lead director; (ii) the size and composition of the Board; (iii) the appropriateness of the committees of the Board; and (iv) committee appointments. In addition, the Committee delivers this annual statement on corporate governance to the Board for inclusion in the Corporation’s management proxy circular.

Compensation Committee
For more information regarding the nature, scope, roles and responsibilities of the Compensation Committee, see pages 19 and 20 of this Circular.

Safety, Health, Environmental and Corporate Social Responsibility Committee (“SHECSR Committee”)
The SHECSR Committee consists of three directors. Two are independent, Rick Clark and Eira Thomas. William Lamb, the third member of the Committee, is the Corporation’s CEO and is not independent. It was determined that Mr. Lamb’s knowledge of the operations of the Corporation and previous operational mining experience would assist the Committee in fulfilling its mandate.

The Committee assists the Board of Directors in its oversight of Lucara’s operations (including the operations of its active subsidiaries) in the following areas:

- safety, health, environment and community risks
- compliance with applicable legal and regulatory requirements associated with safety, health, environmental and community matters
- performance in relation to safety, health, environmental and community matters
- performance and leadership of the safety, health, environment and community function
- external annual reporting in relation to safety, health, environmental and community matters

ETHICAL BUSINESS CONDUCT
The Corporation is committed to conducting its business in compliance with the law and the highest ethical standards. Accordingly, the Board has adopted a written Code of Business Conduct and Ethics (the “Code”) for directors, officers and employees of the Corporation. The Code is available on the Corporation’s website and has been filed on and is accessible through SEDAR at www.sedar.com.
If directors, officers or employees observe or become aware of an actual or potential violation of the Code or of any law or regulation, whether committed the Corporation employees of by others associated with the Corporation they have the responsibility to report the violation and to cooperate with any investigation. Reports can be submitted on a confidential basis to the Chair of the Corporation’s Audit Committee. Following receipt of any complaints, the Chair of the Audit Committee, will investigate each matter so reported and report to the Board. The Corporation will not tolerate any reprisals against employees, officers and directors for good faith reporting of compliance concerns or violations.

The Audit Committee has the primary authority and responsibility for the enforcement of the Code, subject to the supervision of the Board of Directors. It reviews the Code on an annual basis and makes recommendations regarding compliance monitoring.

With regard to conflicts, all directors have an obligation to act in the best interest of the Corporation. In accordance with the Code, any situation that presents an actual or potential conflict between a director’s personal interests and the interests of the Corporation must be reported to the Chair of the Corporation’s Audit Committee. In addition, the Corporation’s articles contain disclosure and voting restrictions that must be followed when a director or officer has an interest in an agreement or transaction with the Corporation being considered by the Board. Also, the Audit Committee is mandated to review and monitor all related party contracts that may be entered into by the Corporation.

In addition to the Code, the Audit Committee has established a Policy and Procedures for the Receipt, Retention and Treatment of Complaints Regarding Accounting or Auditing Matters or “Whistleblower Policy” to encourage employees, officers and directors to raise concerns regarding accounting, internal controls or auditing matters, on a confidential basis free from discrimination, retaliation or harassment.

Another example of the Board’s commitment to the highest ethical standards is the Corporation’s Corporate Social Responsibility Charter. As the Corporation’s mining operations are based in Africa the adherence to this Charter is extremely important to the Corporation. The Charter specifies among other things that Lucara will impact positively on the quality of life of members of the local community and conduct its activities to meet or exceed standards in the protection and promotion of human rights. As part of its commitment to meet the Charter, the Corporation is participating in a sustainability reporting process. This process is being monitored by the Safety, Health, Environmental and Corporate Social Responsibility Committee utilizing the Global Reporting Initiatives (GRI) guidelines. A reporting cycle is currently being set up which involves a program of data collection, communication and responses. A report will then be provided to shape company strategy and policy and improve performance. One of the areas that the report provides information on is social performance. Social performance includes for example, an evaluation of the corporation’s impact on human rights. This monitoring will assist the Corporation in ensuring that its business is conducted to meet high ethical standards.

**SHAREHOLDER COMMUNICATIONS**

The Board has put structures in place to ensure effective communication between the Corporation, its shareholders and the public. The Corporation has established a Disclosure Policy. Shareholders are informed of corporate developments by the issuance of timely press releases which are concurrently posted to the Corporations’ website and are available on SEDAR at www.sedar.com.
SECTION 4 - EXECUTIVE COMPENSATION

2011 COMPENSATION DISCUSSION AND ANALYSIS

Objectives
The objectives of Lucara’s executive compensation program are:

- to structure remuneration packages that are sufficiently attractive to recruit, retain and motivate the kind of executives who will be instrumental in helping the Lucara achieve its short and long-term objectives
- provide executives with compensation that is in accordance with existing market standards generally
- align the interests of Lucara's executive officers with those of its shareholders
- link individual executive compensation to the performance of both Lucara and the individual executive

Elements of Compensation and Reward Structure
Executive compensation is comprised of three elements:

**Base salaries.** This is the basic method of compensating executives. Base salaries are set at levels which are competitive with the base salaries paid by other diamond mining companies (see Benchmarking Group described below), thereby enabling the Corporation to compete for and retain executives critical to the Corporation’s long-term success. While the overall goal of the Compensation Committee is to set salaries at approximately the market median for diamond mining companies, it does adjust base salaries to take into account an individual’s experience. Lucara’s executives have employment contracts which entitle them to receive a base salary provided they fulfill the job responsibilities associated with their position description. As payment of base salaries does not depend on the performance of any specific targets or goals it is not viewed as “at risk” compensation.

**Bonuses.** Executives have no contractual right to bonuses and this form of compensation is clearly “at risk”. Such payments are made solely in the discretion of the board. Bonuses are considered by the Board on the recommendation of the Compensation Committee. The decision by the Compensation Committee to recommend payment of bonuses is based on executives meeting individual and corporate performance criteria. The Board uses the payment of bonuses to motivate executives to meet short term performance goals for the benefit of the Corporation. As Lucara is a corporation transitioning from diamond exploration and construction phases to operations, with diamond production starting this year at its Karowe Mine in Botswana, 2011 bonuses are being assessed once Karowe successfully starts up based on measured achievements on project safety, capital budget, schedule and mine and plant startup performance. As the year progresses, operating performance measurement metrics will be substituted in for assessment of future annual short term incentive awards.

**Stock Options.** The Corporation has established an incentive stock option plan which is administered by the Board. The Compensation Committee makes recommendations to the Board for grants of stock options under the plan. Normally, when hiring executives, Lucara commits to an initial stock option issuance. This assists the Corporation in recruiting high performing individuals and then incentivizes such executives to drive the longer term growth of the business. This form of compensation aligns the interests of executive officers with the longer term interests of shareholders as the exercise price of options is set at the market value of the Corporation’s shares at the time of the grant. As options vest over time (three equal annual installments beginning on the grant date) they are an important executive retention strategy for Lucara. On an annual basis, the Compensation Committee considers, taking into account Lucara’s long term goals and previous grants to executives, whether further stock option grants should be recommended to the Board. Stock options are another form of compensation paid by Lucara that is “at risk”. The Corporation has no other long term incentive plans in place.

The Corporation recognizes that its compensation package has to be sufficient to attract and retain the right level of skill, expertise and talent in an increasingly competitive global market. The structure of the remuneration
package must be well-balanced across the short, medium and longer term elements, so that it is both attractive to the individual and cost effective for the Corporation.

In summary, Lucara uses base salary compensation to reward executives for effectively fulfilling their job responsibilities, bonuses to reward executives for meeting short term performance goals and stock options as a retention strategy and to reward executives for long term business growth.

By providing base salary at a reasonable median level the Corporation is able to attract talented candidates. However, the short term incentive (discretionary bonuses) provides recruits with the opportunity to achieve superior total annual reward through their own delivery of excellence at individual and business levels. Finally, the longer term reward element (stock option grants), provides the opportunity to build ownership and growth in the medium and longer term future in line with the opportunities for success afforded to the shareholders.

**Benchmark Group**

As noted above, executives’ base salaries are benchmarked against a comparator group. The comparator group chosen for the 2011 compensation review process consisted of diamond mining companies that are publicly listed. The following is the list of companies forming the comparator group in 2011:

- Gem Diamonds
- Firestone Diamonds
- Stornoway Diamonds
- Petra diamonds
- Peregrine Diamonds
- Shore Gold
- Namakwa Diamonds
- Mountain Province

**Performance Goals**

The Compensation Committee reviews the performance of the Corporation’s executive officers at least annually. As noted above, Lucara is transitioning from an exploration to a diamond producing company and as such the key performance goals for executives in 2011 and 2012 relate to: (i) to the opening of Lucara’s new Karowe mine in Botswana on budget and on time; and (ii) the completion of the trial diamond mining project in Lesotho, known as the Mothae Project, also on budget and on time. There are also other goals that come into play when the members of the Compensation Committee are considering executive compensation. These goals include, increase in the Corporation’s share price and an excellent safety, environmental and corporate social responsibility record.

The Compensation Committee takes into account each executive’s individual performance towards the performance goals when determining compensation including the importance that the individual plays in successfully meeting these goals.

**Alignment Compensation Programs and Risk Management**

Risk management is a primary consideration of the Board when implementing its compensation programme. It does not believe that its compensation programme results in unnecessary or inappropriate risk taking including risks that are likely to have a material adverse effect on the Corporation. Payments of bonuses, if any, are not made until performance goals have been met. A decision was made in 2011, by the Board, to delay the annual award and payment of bonuses to the Named Executive Officers until the opening of Lucara’s new Karowe Mine. This key performance goal, the opening of the Corporation’s new Karowe mine on budget and on time, is also Lucara’s current key business enterprise risk. Clearly, alignment of risk to compensation is a critical component of the Board’s compensation strategy. Managing risk in the areas of safety, environmental and corporate social responsibility is also extremely important to Lucara and hence the Corporation’s record on safety, environmental and corporate social responsibility is an important factor when considering executive compensation. With regard to stock options, the Board has approved a stock option plan for vesting provisions over time which reduces the risk of short term decision making.
To ensure that, following operation of the mine, there will continue to be adequate safeguards in place to mitigate compensation related risks, the Corporation is introducing this year an annual compensation risk review. This compensation risk review will be performed by the Compensation Committee and any recommendations flowing from it will be presented to the Board.

**Director and Officer Hedging Prohibition**

Lucara’s Board of Directors and executive officers are not permitted to purchase financial instruments, including for greater certainty, prepaid variable forward contracts, equity swaps, collars or units of exchange funds that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the director or officer.

**PERFORMANCE GRAPH**

**Total Shareholder Return**

The *Total Shareholder Return* (“TSR”) graph, above, represents the comparative TSR performance of the Company from its listing date on the TSXV of 21 July 2008 to 13 April 2012.

The graph shows the Company’s performance against the TSX Composite index of which it is a member, chosen as being a broad equity market index with companies of a comparable size and complexity. The graph also shows the company’s performance against a sector index comparator group. The comparator index provides an indication of how the Company is performing against comparator companies in the diamond sector.

**COMPENSATION GOVERNANCE**

**Role of Management in Determining Compensation**

The accountability for decisions on executive remuneration is within the mandate of the Board with recommendations from the Compensation Committee; however, management has a key role in helping support the Compensation Committee in fulfilling its obligations. For example, the CEO and other senior members of the Corporation’s management team provide a source of external data and analysis.

**Composition of the Compensation Committee**

The Compensation Committee, on behalf of the Board, monitors compensation for the executive officers of the Corporation. The Compensation Committee currently has three members: Messrs. Paul Conibear, Richard Clark and Brian Edgar. Since 2007, the Compensation Committee has maintained a mandate and meets as frequently as necessary in order to fulfill its responsibilities and in any event, at least annually.
**Skills and Experience of Compensation Committee Members**
All members of the Committee have direct experience which is relevant to their responsibilities as Compensation Committee members. All members are or have acted as CEO for a public company, and therefore have a good understanding of how compensation works and how to motivate staff. They also have good financial understanding which allows them to assess the costs versus benefits of compensation plans. The members combined experience in the resource sector provides them with the understanding of the company’s success factors and risks which is very important when determining metrics for measuring success.

**Mandate and Responsibilities of Compensation Committee**
The following is a summary description of the mandate and responsibilities of the Compensation Committee as it relates to executive compensation:

- to review and approve corporate goals and objectives relevant to executive compensation, including the evaluation and performance of the CEO in light of those corporate goals and objectives, and to make recommendations to the Board with respect to compensation levels (including the award of any cash bonuses or share ownership opportunities);
- to consider the implementation of short and long-term incentive plans, including equity-based plans, proposed by management, to make recommendations to the Board with respect to these plans and to annually review such plans after their implementation; and
- to annually review any other benefit plans proposed by management and to make recommendations to the Board with respect to their implementation.

**Compensation Advisors**
The Corporation has not retained any compensation consultants or advisors during or since the year ended December 2011.

**COMPENSATION OF NAMED EXECUTIVE OFFICERS**
For the purposes of this Circular, “Named Executive Officer” means: (a) Chief Executive Officer, (b) Chief Financial Officer, (c) each of the three most highly compensated executive officers, or the three most highly compensated individuals acting in a similar capacity, other than the Chief Executive Officer and Chief Financial Officer, at the end of the most recently completed financial year whose total compensation was, individually, more than $150,000 CAD; and (d) each individual who would be a Named Executive Officer under paragraph (c) but for the fact that the
individual was neither an executive officer of the Corporation, nor acting in a similar capacity, as at December 31, 2011.

During the financial year ended December 31, 2011, the Corporation had five Named Executive Officers being: William Lamb, Lawrence Ott, Anthony George, Susan Neale and Glenn Kondo

(1) Other than for Dr. Ott who is paid in United States dollars, salaries for the Named Executive Officers are paid in Canadian dollars and converted to United States dollars for reporting purposes in the Summary Compensation Table for the financial year ended December 31, 2011 at the average exchange rate of CAD$1.00=US$0.9891, and for the financial year ended December 31, 2010 at the average exchange rate of CAD$1.00 = US$0.9706, being the Bank of Canada average annual exchange rates.

(2) This amount represents the fair value, on the date of grant, of awards made under the Lucara’s stock option plan. The value has been determined using the Black-Scholes models and is consistent with the determinations used for financial statement purposes. The amount presented in the table represents the fair value of the vested and unvested portion of the options granted for the period. For accounting purposes, the fair value is amortized over the applicable vesting periods. Options fair values were calculated in Canadian dollars and translated into United States dollars using an exchange rate of CAD$1.00=US$0.9490 for the January 4, 2010 options grant and CAD$1.00=US$0.9918 for the December 14, 2010 option grants, CAD$1.00=US$1.0083 for the September 14, 2011 option grant and CAD$1.00=US$0.9551 for the November 27, 2011 option grants awarded to these individuals. It should be recognized that the actual future value will be based on the difference between the market value at time of exercise and the exercise price. Therefore, the value attributed to the stock options under the Black-Scholes model does not necessarily correspond to the actual future value that will be realized. The Black-Scholes option pricing model incorporates the following assumptions:

The material terms of the 10% Rolling Plan remain unchanged and can be summarized as follows:

1. The number of common shares issuable upon the exercise of all options granted under the Plan shall on exceed 10% of the issued and outstanding share capital of the Corporation on a non-diluted basis at any time and such aggregate number of common shares shall automatically increase or decrease as the number of issued and outstanding share changes.

5. The options may be exercisable for up to 10 years.

6. Subject to the Board of Directors’ discretion, Options will have a minimum vesting period of two years: 1/3 of the Options vesting upon the date of grant; 1/3 of the Options vesting on the first anniversary of the grant; and the remaining 1/3 vesting on the second anniversary of the grant. Notwithstanding the foregoing, all Options granted to Eligible Persons will have, at a minimum, a vesting period over a minimum of 18 months and will not have vesting schedules which permit a majority of the shares to be released early in the vesting period rather than equally on a quarterly basis. 8. The options can only be exercised by the Optionee (to the extent they have already vested) for so long as the Optionee is a director, officer or employee of, or consultant to, the Corporation or any subsidiary or is an employee of the Corporation’s management corporation and within a period thereafter not exceeding the earlier of:

13. Subject to applicable law and to the prior approval, if required, of the Exchange or another regulatory body with authority, or if required by the rules or policies of the Exchange or the shareholders, the Board may suspend, terminate or discontinue the Plan or amend or revise the terms of the Plan or of any Option granted under the Plan provided that such amendment, revision, suspension, termination or discontinuance shall not adversely affect any Option granted to an Optionee under the Plan without the consent of that Optionee.
