TORONTO, ONTARIO – December 1, 2014: Galane Gold Ltd. (“Galane Gold” or the “Company”) (TSX-V: GG) is pleased to announce the release of its financial results for the three and nine months ended September 30, 2014. All amounts are in United States dollars unless otherwise indicated.

A copy of the unaudited condensed consolidated interim financial statements for the three and nine months ended September 30, 2014 prepared in accordance with International Financial Reporting Standards and the corresponding Management’s Discussion and Analysis will be available under the Company’s profile on www.sedar.com.

Third Quarter 2014 Highlights

- Operating cash cost of $886 per ounce (excluding royalties)(1)
- Cash balance of $12,047,571.
  - Cash flows from operating activities, before working capital adjustments, of $2,545,843.
  - Cash flows used in investing activities of $3,191,406 which included development at Tau Underground plus pre-stripping at Golden Eagle and Tawana.
- Produced 8,206 ounces of gold.
- Total ore mined of 172,104 tonnes at an average grade of 1.69 grams per tonne.
  - In addition 30,201 tonnes of historical tailings material at 1.25 grams per tonne was transported to the processing plant.
- Total ore milled of 200,042 tonnes at a head grade of 1.68 grams per tonne.
  - As disclosed in the Company’s press release of May 26, 2014 there was a failure of the SAG mill motor during the second quarter of 2014. The Company installed a smaller spare motor but as a result the milling capacity was restricted to 70% of the normal capacity. This adversely affected the amount of ounces produced in the quarter which in turn affected the financial results and the operating cash cost per ounce. The new motor was installed on August 28, 2014.

Galane Gold CEO, Nick Brodie commented: “The most pleasing aspect of the quarter was that all the hard work we have put into reducing costs and improving efficiencies in the operation has resulted in an operating cash cost per ounce of $886. This is despite only operating with the new SAG mill motor for one month of the quarter.

In addition, we have rolled our five year plan on another year and identified further areas where we can improve operating costs, production efficiencies and recoveries, and as a result we feel we are in a strong position to remain cash positive during this low gold price environment.”
Note:
(1) Operating cash cost excluding royalties is a non-GAAP measure. Refer to "Supplemental Information to Management’s Discussion and Analysis" in the Company’s Management’s Discussion and Analysis for the three and nine months ended September 30, 2014 for reconciliation to measures reported in the Company’s financial statements.

Cautionary Notes
Certain statements contained in this press release constitute “forward-looking statements”. All statements other than statements of historical fact contained in this press release, including, without limitation, those regarding the Company’s future financial position and results of operations, strategy, proposed acquisitions, plans, objectives, goals and targets, and any statements preceded by, followed by or that include the words “believe”, “expect”, “aim”, “intend”, “plan”, “continue”, “will”, “may”, “would”, “anticipate”, “estimate”, “forecast”, “predict”, “project”, “seek”, “should” or similar expressions or the negative thereof, are forward-looking statements. These statements are not historical facts but instead represent only the Company’s expectations, estimates and projections regarding future events. These statements are not guarantees of future performance and involve assumptions, risks and uncertainties that are difficult to predict. Therefore, actual results may differ materially from what is expressed, implied or forecasted in such forward-looking statements.

Additional factors that could cause actual results, performance or achievements to differ materially are set out under the heading “Risks and Uncertainties” in Galane Gold’s annual management’s discussion and analysis for the year ended December 31, 2013, a copy of which is available on the Company’s SEDAR profile at www.sedar.com. Management provides forward-looking statements because it believes they provide useful information to investors when considering their investment objectives and cautions investors not to place undue reliance on forward-looking information. Consequently, all of the forward-looking statements made in this press release are qualified by these cautionary statements and other cautionary statements or factors contained or referenced herein, and there can be no assurance that the actual results or developments will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, the Company. These forward-looking statements are made as of the date of this press release and the Company assumes no obligation to update or revise them to reflect subsequent information, events or circumstances or otherwise, except as required by law.

Information of a technical and scientific nature that forms the basis of the disclosure in the press release has been approved by Charles Byron Pr. Sci. Nat., MAusIMM., MGSSA and Chief Geologist for Galane Gold, and a “qualified person” as defined by National Instrument 43-101.
Neither the TSX Venture Exchange nor its regulation services provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
