In terms of the listing requirements of the Botswana Stock Exchange, a listed company is required to announce any circumstances or events that have, or are likely to have, a material effect on the financial results of the company for the period to be reported upon next.

The Board of G4S Botswana hereby announces that the Company’s results for the period ended 30 June 2013 are expected to be lower than those reported for the period ended 30 June 2012. This is owing to a reduced run rate from the second half of 2012 resulting from a write down in the number of systems subscribers for credit reasons and also an increase in the impairment of trade receivables in the period under review. However, the Board is pleased to note that the results will compare favourably to the full year results for the period ended 31 December 2012 and that growth in full year earnings is expected for the year ending 31 December 2013.

In view of this, shareholders are advised to exercise caution when dealing in the Company’s securities until such time as a detailed announcement is made. Detailed results for the period ended 30 June 2013 are expected to be released on or about 31 August 2013.

The financial information on which this statement is based has not been reviewed or reported on by G4S Botswana auditors.
