For Immediate Release, 1 August, 2023:

It is with great pleasure that we announce to our stakeholders that the Botswana Stock Exchange (BSE)'s total market capitalization has grown from P396 Billion to P593 Billion at the close of the market today, registering a 50 Percent increase. This milestone has catapulted the BSE to be one of the leading stock exchanges in Africa in terms of size.

Commenting on this milestone, the BSE CEO, Mr. Thapelo Tsheole, "**Expressed great joy at this development and thanked the BSE team for working tirelessly to develop the market.**

This goes to show that our strategic objective of increasing the size of the market is bearing fruit. We look forward to greater milestones before year end in terms of trades and listings".
